Libero tracking sheet directions

A new video was produced by the NFHS that provides instructions for rally score and free tracker. The video will bring the viewer through a set of samples using the NFHS spreadsheet. In addition, free tracker instructions and sample monitoring sheet as a result of the set action are provided. This new tutorial appears on the NFHS Officiating Central Hub (www.nfhs.arbitersports.com) and NFHS (www.nfhs.org). To improve the competence of junior support crews during the season, OVR officials should give similar instructions during pre-match discussion. If the teams are hearing the same information from officials, no matter what part of the region they play, we will find that they learn and adapt quickly! Good things an OVR official should tell a young assistant scorer: "Do you know why you have this job and what you're looking for?" (ANSWER: Simply put, the number before and after the "L" must be the same. If they are not, warn the referee.) "Remember to monitor all the replacements as well." "On the Free tab, remember to use a "L" for Free; do not use its number." "If there was an illegal replacement, do you know when to warn me?" (ANSWER: After the contact of the next service. Treat it like a wrong server. REFEREES: This is a position defect, and results in a loss of rally.) When a Free comes out of the field and is replaced by the original player, it must sit for a point (ason the spreadsheet). It's not the only phrase we should use here. A replay constitutes a rally, and therefore, Free can also return to court after play-over. In addition, a yellow card (individual or team) translates into a spot on the spreadsheet, and consequently Free can return to court even under this circumstance.) If a timeout is called immediately after a Freeman left the court, we have to look to make sure Free does not return to the court after the timeout. Emphasis points: In addition to monitoring Free's replacements, the scorer should also help the scorer by verbalizing replacements, and repeating the score at the time of replacements. During a timeout, double count of your replacements on the Free Tracking Sheet for each team. This should match the player's information. Tell the two numbers involved in replacing Libero so that the marker can help verify it. This.
