How to change to 3g on android

How to change to 3g. How to change from 3g to 4g on android. How to change 3g to 4g on android phone. How to change my phone to 3g. How to change edge to 3g on android. How to change h+ to 3g on android. How to switch to 3g on android.

To save on battery life, and when you do not need 4G, there's a way to continue to 3G vs. 4G. I know that you can switch to a WiFi network, but you can always get WiFi when you are away from home ... Anyone out there knows ??? Ronald Hodnett like this. 2011/12/31 03:47 How I Yes, there is a way to move from 3G to 4G . Go to Menu> Settings> wireless & networks> mobile networks> network Mode. Here you can switch between LTE / CDMA (4G) or only CDMA (3G). 2011/12/31 15:55 0 How © Why are you turning off 4G? 2011/12/31 06:05 0 How trying to Conserve battery. Sent from my HTC Rezound using Tapataalk 0 2011/12/31 06:11 How Same here. Just curious 2011/12/31 09:23 0 As I read this somewhere else and it works for me. Download AnyCut from the market. Create a shortcut on the basis of an activity. You will see a huge list of activities including various CDMA options. Choose the last on the list. And that's it a shortcut that will bring you directly to the settings menu where you can enable or disable 3G or 4G. Sent from my HTC Rezound via Tapataalk. 2011/12/31 22:42 1 As I read this somewhere else and it works for me. Download AnyCut from the market. Create a shortcut on the basis of an activity. And that's it a shortcut that will bring you directly to the settings menu where you can enable or disable 3G or 4G. Sent from my HTC Rezound via Tapataalk. This is spectacular! I can not believe an app from 2008 still works. THANK YOU! ... Sent from my Tab 2011/12/31 23:51 0 How not forget to mention LTE On / Off app for the Lightning (works in Rezound) as a shortcut for setting the menu as LTE 01-01-2012 12:21 0 = 1527069 viewFull = 1 & # post1527069 not forget to mention LTE on / Off app for Thunderbolt (works on Rezound) as a link to the LTE setup menu I tried it and it opened up a lot more complex options window. ... Sent from my Tab 01-01-2012 24:34 0 How 4g poised for RAZR opens a lot of dialogue simpler to switch from 3G to 4G 01-01-2012 02:44 0 How I really hate it when people questions kind of like an answer to a question. "Why do you want to turn it off ©"? © Why is even matter because ©? He wants to turn it off. Lol! In direct answer: You can do with the applications on the market. Here is the use I: When you touch it you get a number of options ... there's a drop-down menu The preferred type of network. I have passed it "CDMA Auto" (3G) and "LTE W / VOICE mode" (for 4G). It is more complicated than a simple switching apparently, but this method works and is to use. 01-01-2012 10:48 Like I Thank you for information for apps - appreciate !! One day we all hope that 4G does not drain so much power. One day ... 01-01-2012 12:46 It likes 0 Actually I don't have a problem with battery life . I could not be an energy user though. And I use Dolphin HD for a browser and a dolphin mate who has a battery life optimization component that seems to work well. Sent from my HTC Rezound using Tapataalk 01-01-2012 01:03 PM as 0 I don't have a problem with the battery Life on 4G or ... now that boatware has disappeared. Gee, I wonder if they are related, heh heh. 01-01-2012 01:20 It likes 0 I really hate when poeper ask genre questions as an answer to a question . "Why do you want to turn it off"? Why does it also matter why? He wants to turn it off. Lol! In a direct answer: you can do it with the apps on the market. Here's what I use: click to view the listed image When you touch a lot of options ... there is a fall By type of favorite network. Inergame between "CDMA Auto" (for 3G) and "LTE MODE W / VOICE" (for 4G). It is more complicated than a simple switch seemingly, but this method works and is easy to use. Yes, this is what I mentioned. Paulq said "I tried and opened a window of very more complex options" I'm not sure. If there is something faster, I didn't see it. 01-01-2012 01:29 pm as 0 I have 4G OFF because at home I have wifi and at work I don't Get a 4G signal. No point in approx to turn on if they don't be. When I need 4G speed, I turn it on, but otherwise there is no need for tests and calling people. 01-01-2012 01:36 it likes 0 The toogles between "CDMA car" (for 3g) and "LTE mode W / Voice "(for 4G). It is more complicated than a simple switch seemingly, but this method works and is easy to use. Yes, for the LTE Onoff app, switch to two elements on the drop-down menu. "CDMA Auto" (for 3G) and "LTE W / VOICE mode" (for 4G), and do not joke with the other rumors of the menu. 01-01-2012 01:40 PM Like 0 has closed a battery test with 4G ON and OFF? To see how long the battery lasts on 4G vs 3G 01-01-2012 03:05 pm as 0 ToggI For Razr. You don't have to face tons of options in a drop-down menu. Once the menu you have two choices - CDMA or LTE / CDMA is much better than most switching outside. 01-02-2012 12:16 Like 0 Get 4g toggle for razr: You don't have to face tons of options in a drop-down menu. Once the menu you have two choices - CDMA or LTE / CDMA is much better than most switching outside. On the retractor, this only brings the network screen. Virtually the same any cut. Still a very good option. Funny as everyone complains about the icon. It is beautiful "evident". 01-02-2012 12:35 AM. Am. 0 I got more an extended battery and I don't care more than battery life. I leave everything. Brightness at the top (sometimes reject it at night, so I don't burn my rhetines), 4G, GPS, GPS, Bluetooth, Stream Music and Videos, games, whatever. I will always do it through the day, sometimes 2 days. I didn't buy a phone with these features just to make them spend. Until the battery technology is better, it is extended batteries for me 01-02-2012 01:26 like 0 # Post1529429 I received an extended battery and I don't care more than the battery life. I leave everything. Brightness at the top (sometimes reject it at night, so I don't burn my rhetines), 4G, GPS, GPS, Bluetooth, Stream Music and Videos, games, whatever. I will always do it through the day, sometimes 2 days. I didn't buy a phone with these features just to make them spend. Until the battery technology is better, it is extended batteries for me I don't want most of the battery extended. I'm going to test this weekend next to see how much 3G actually save actually on battery life. I read in another wire that someone got 9 hours on 4g and from 15 to 17 hours on 3G with comparable use 01-02-2012 11:45 am like 0 t = 146274 & s = 25c31dffad5a6068efc137ec1a215046 & p = 3448098 and viewfull = 1 # post3448098 nothing works. When I try to change it to CDMA. It automatically prefers Wasdma. I tried so sometimes. But it still selects what he wants. (Solo WCDMA PreFermed) Help me Fratelli 02-11-2014 04:48 AM Like 0 nothing works. When I try to change it to CDMA. It automatically prefers Wasdma. I tried so sometimes. But it still selects what he wants. (WCDMA Prefermed only) Help me the brothers are you on a GSM courier? WCDMA is a type of 3G in the world of GSM ... if you are on Verizon you should not get any connection with WCDMA. 02-11-2014 07:37 Like 0 0
