Then pass the thread around the back of guide 3 and into its upper notch, then up and through the hole O, Fig. 12 in the left side of the bobbin 4 from the inside.

Press the bobbin winder against the hand wheel until latch M, Fig. 12 drops down and holds the bobbin winder pulley N against the hub of the hand wheel.

The end of the thread must be held by hand until a few coils are wound, and should then be broken off. Fig. 12 shows the bobbin winder in position for winding. When sufficient thread has been wound upon the bobbin, the bobbin
