We uphold a standard of integrity bound by fairness, honesty, and personal responsibility. Our distinction is the quality of service we bring to our customers. Accurate knowledge of our trade combined with ability is what makes us true professionals. Above all, we are watchful of our customers' interests, and make their concerns the basis of our business. I chose to work in this industry because I love working on chimneys anywhere from a cleaning or a repair. We started in this industry in 2000. We describe our business as Family owned and operated Yes we have been with King Insurance Agency for years We are affiliated with the Better Business Bureau View All Details & Credentials Fireplace Install Fireplace Repair Cleaning Inspection Akron Cuyahoga Falls Kent Hudson Stow Tallmadge Gas Pellet or Wood Stove Install Gas Pellet or Wood Stove Repair View All Offerings and Cities Served Knows what he is doing and did a great job. Would highly recommend him. Response from Company: Thank you very much. We strive on nothing but the best for our customers! I've already referred him to my neighbor! He's knowledgeable and experienced. He's timely, prompt, and hard worker. He has great recommendations and is honest and fair, especially with pricing. We knew we needed things done, but he showed us ways to save money. Myke and Rhonda are very professional and personable, he is very skilled at his trade, goes above and beyond expectations, even removed a nest out of our chimney, he cleans up after himself, like he was never here other than having a clean chimney. He does an excellent job, and I highly recommend to all. HomeAdvisor allows Service Professionals to post information about themselves and their business on their profile. Now that you've gone to the effort and cost of installing solar panels, make sure you're getting the maximum output from them. Dirty solar panels can lose up to 25% efficiency! The external surfaces of your panels are designed to capture sunlight and convert to usable electricity, so anything that hinders the ability of the solar panels to capture sunlight will decrease the amount of generated electricity. Here at Sooty's Chimney Cleaning, we offer a full cleaning and maintenance service for your solar panels, using only the most professional and detailed cleaning techniques. After cleaning, we check the solar panels, mounting frames, wiring, and inverter operation to ensure optimal performance. We report any possible problems and can also make suggestions as to the appropriate course of action. We make appointments to suit you, and we keep them! Every care is taken to leave your home or premises totally dust-free, and our work is completed in a timely and efficient fashion. Regular chimney cleaning and maintenance is a must for any property with a real fireplace, ensuring that it continues to work both safely and efficiently throughout the course of its life. If you possess a chimney on your property simply call us today for a chimney cleaning service you can rely on. We should add, as a note of caution, that failing to keep you chimney in a clean condition can result in not only the obvious consequences of a fire but also a seepage of carbon monoxide into the property which can result in death. Even with your chimney maintained regularly by an experienced chimney sweep we'd still strongly recommend purchasing a carbon monoxide detector, it really could be the best investment you'll ever make.
