Veronica Roth wrote this story for herself after thinking she was done with the series and decided to share it with fans. However in a Q&A, she has said, "People don't have to think of it as canon, if they don't want." (This is mainly in response to hateful comments aimed at the relationship between Tobias and Christina). Community content is available under CC-BY-SA unless otherwise noted. Elias is a soldier. Neither is free. Under the Martial Empire, defiance is met with death. Those who do not vow their blood and bodies to the Emperor risk the execution of their loved ones and the destruction of all they hold dear. It is in this brutal world, inspired by ancient Rome, that Laia lives with her grandparents and older brother. The family ekes out an existence in the Empire's impoverished backstreets. They do not challenge the Empire. They've seen what happens to those who do. But when Laia's brother is arrested for treason, Laia is forced to make a decision. In exchange for help from rebels who promise to rescue her brother, she will risk her life to spy for them from within the Empire's greatest military academy. There, Laia meets Elias, the school's finest soldier—and secretly, its most unwilling. Elias wants only to be free of the tyranny he's being trained to enforce. He and Laia will soon realize that their destinies are intertwined—and that their choices will change the fate of the Empire itself. We've detected that JavaScript is disabled in this browser. I KNEW IT. I just really stinking knew that it was going to end up like this. *ahem* Sorry. Now that that's done, we can talk like adults. So, We Can Be Mended is the ity-bity 33-page epilogue written by one of my all time favorite authors ever, Veronica Roth, tying up the Divergent world forever. In it, we catch up with arguably the fictional world's dreamiest boyfriend: Tobias Eaton. Five years since Allegiant (and I'm still not over it), the epilogue focuses on Four's life after the unexpected death of Tris. See, I nearly peed my pants when I heard the news that Veronica Roth would be taking me back into the Divergent world again. I was so excited that I immediately screenshot the announcement and texted it to sweet Amanda, demanding that we both preorder Carve the Mark so we could get this long awaited epilogue. I was prepared to see Four move on, heal, enter a new chapter of life and *gasp* even find new love. Guys, I really was. I want Four to be happy, to be healthy... but I got the one thing I didn't want. Christina. The Candor smart-mouth.But I'm getting a little ahead of myself now. When I first received the epilogue, I was super excited because I completely forgot about it, but then I was really sad because it's literally the size of a pamphlet. However, thank God it wasn't any longer than it was because I WANTED TO LIGHT IT ON FIRE by the time I was done. Needless to say, it's been quite the roller coaster of feels for me lately. So without further ado, the pros and cons:1. It's predictable.From the second page, you'll know exactly where it's going. Which I guess is good since it's only 33 pages? Anyway, not the point. The point is that from the second the scene opens up with Christina and Four standing together at a railing, you know that Veronica is working us toward the end goal of the two finding healing through each other. The Five Year Reunion is coming up and it's being held at the former Dauntless Headquarters, the good old stomping grounds of our beloved gang, chalk full of memories of Tris
