< DEFAULT STORAGE LOCATION

Select where to save your contacts.

How do you add a contact to an android phone. How to add address to phone contacts. How to add contacts to new android phone.

1 Open the Contacts app. You'll usually find it on your home screen or app drawer. Look for an outline of the person's head and shoulders against a blue or green background. 2 Tap . Color may vary. It is usually located in the upper or lower right corner of the screen. Advertisement 3 Choose a location. If prompted, select the account or location you want to sync the new contact with. Usually you can choose your device (Android), SIM card or Google account. 4 Enter the name and phone number of the new contact. The procedure is as follows:[1] Click next to the contact's name to select where the contact should be saved (e.g. Google account, SIM card). Enter the contact name, phone number and/or email address in the appropriate fields. To add a photo, tap the camera icon, then select a photo. To add more details, such as addresses or notes, click More Fields. 5 Click Save. It is located in the upper right corner of the screen. On some Android devices, this may be a check mark. Your new contact is saved and ready to use. Advertisement 1 2 Open the Contacts app. You'll usually find it on your home screen or app drawer. Look for an outline of the person's head and shoulders against a blue or green background. 3 Tap â. It is located in the upper left corner of the screen.[2] 4 Click Settings. 5 Scroll down and tap Import. It is located under the "Manage Contacts" heading. 6 Tap the SIM card. If you have more than one, select the card with the contacts you want to import. 7 Select the contacts you want to import. Tap the empty field next to the contact's name to add a checkmark. All checked contacts will be imported to your Android device. 8 Click Import. It is located in the upper right corner of the screen. After a while, your contacts will be imported to your Android device and will appear in the Contacts app. Advertising 1. Open the Phone app. This is the phone handset icon that is usually found on the home screen. If you don't see it, you should find it in your app drawer. 2 Tap the dial icon. Usually it islike 9 small squares or circles. This will open the keyboard. 3 Enter the new contact's phone number. Additional options will appear after entering the full number. 4 Tap Create new contact. A screen will open where you can enter additional information about the contact. If you prefer to add this new phone number to an existing contact, select Add to Contacts or Add to Existing Contact. You can then select a contact and phone number type (for example, home, mobile). You may need to select a location to save the contact. When prompted, select your SIM card, device, or Google account as prompted. 5 Enter the contact's personal information. Enter the contact's name in the first blank field. You can also add an email address, postal address, photo, and notes. 6 Tap Save. This option is located in the upper right corner of the screen. On some Android devices, this button may be flagged. Your new contact is saved and ready to use. Announcement Add a new question Question How do I add contacts to my phone? It depends on your phone model. Normally, you go to the "Contacts" section and click the "Plus" button in the upper right corner of the screen. For Android 4.0, use the main menu button (at the top or bottom of the screen) and tap Create Contacts. Question I want to find all my contacts. How can I do it? Click the Contacts app. Then type your search at the top next to the magnifying glass icon. Question How can I add a photo to my new contact if it is not already in my gallery? How do I get this from Google Photos? First, upload a photo from the Google Photos app by clicking on the three dots in the right corner, then click "Save to Device". This will save the photo in your gallery. Then go to that contact and add a photo from your gallery. See more answers Ask a question Advertise This article was co-written by wikiHow staff. Tap the icon in the app drawer to open it.[1] 2 Click the magnifying glass icon. The settings menu differs slightly between Android models. The easiest way to find out where to enter emergency information is to use the search function. Click the magnifying glass icon in the top right corner to display the search bar. 3 Enter emergency contacts in the search field. The search bar is at the top of the page. A list of emergency contacts menu options appears. 4 In the search results, tap Emergency Contacts. If you see "Emergency Contacts" in the list of search results, tap it and navigate to it in the settings menu.[2] 5 Tap Emergency Contacts. This will open the emergency contact options in the Settings menu. 6 Click Edit Information. A menu will appear where you can add your medical information. 7 Enter your health information. To enter your health information, do the following:[3] Name. To enter your name, tap First Name, then enter your full name in the field provided. Then click OK. Address. To enter your address, click "Address" and enter your address in the field. Then click OK. Blood type. To add your blood type, tap Blood Type, then tap the switch next to your blood type. If you're not sure about your blood type, click the radio button next to Unknown. Click outside the list when you're done. Allergies: If you have allergies, double-click Allergies and list any allergies you have on the appropriate line. When you click OKcompleted. Medications: Click on Medications to enter the medications you are taking. Next, enter all the medications you are currently taking in the designated area. When you're done, tap OK. Organ Donor Status: If you want to include the status of the organ donor, tap Organ Donor. Then tap the radio button next to Yes, No, or Unknown. When you're done, tap outside the menu. Additional Medical Information: To enter additional medical notes or conditions, click Medical Notes and enter any additional medical information you wish to include. When you're done, tap OK. 8 Touch . The left arrow in the upper left corner will go back to the previous screen. Click on it when you have entered all your medical information. 9 Tap + Add contacts. Tap to see a list of apps you can use to add an emergency contact. 10 Tap Contacts. It is in the list of applications. Depending on how your Android phone or tablet is set up, the Contacts or Google Contacts app will open with a list of contacts. 11 Add an emergency contact. This will open the Contacts app on your Android phone where you can add an emergency contact. When you see your Google contact list, tap the contact you want to use as an emergency contact. This will add the contact to the emergency contact. Remember that you can dial emergency contacts from the lock screen without unlocking the phone. advertising advertisement
