WEA VI pulled together a list of the best titles currently available in the Play Store that will be performed at 120Hz in 2021. There!À € knows new generation of emerging mobile games on the Android market and this time they rely on a different frame rate to make it feel like you!€ King in the game, rather than watch it. WEA VI collected a list of 25 best 90Hz free and 120Hz Android games to try. One of the best things about Android is that users can download any Android game for free. This is a fantastic news if you!€ King a game fan on a mobile phone, but it!à € s even a bit of a double-edged sword. Games must be free to be downloaded, but they must also be free to be played. Many of the best Android games are free, but some of the best Android games are paid. Android mobile phones have traveled a long way. From a few MB of RAM and some GB of internal memory to 16 GB of RAM and 512 GB memorization (or more). In addition to the 60Hz traditional screens, most Android phones now have 90 Hz or 120 Hz screens. Moreover, Android games are greatly improved and high-end use features. But it's not easy to find Android games that support a higher frame rate. Thus here are the first 10 games for Android with 90 Hz and 120 Hz of refresh rates (free and paid). A display with a higher update rate (90 Hz, 120 Hz, 144 Hz) not only guarantees more smooth daily activities, but even easier game, especially You play first-person shooter and Battle Royale games. With mobile gaming quickly becoming a huge market and a whole new sector, focused phones are increasing. These phones have the best hardware, with OEM skins on Android and all that a mobile player might want. However, to use all these features, you need an application or games that support high-end hardware. High, there are now many Android games that support refresh rates of 90 or 120 Hz. What does a high frame rate means for mobile games? Most mobile games run at 60 Hz; This was the standard until now. But since this function is available on smartphones, game developers have also begun to support more high frame rates in their mobile games. This means that the gaming experience is much better if the game supports a more high refresh rate, for example. B. 90 Hz, 120 Hz or 144 Hz. But there!€ s one problem: you can see and feel the high frame rate only if the phone and game are equipped with this function. So if the game supports a high refresh rate and the phone doesn t, the game at the normal frequency of 60 Hz refresh. If the phone has a high refresh rate and the game does not do it, play it again with the frequency normal update. Finding games that support high frame rate can be time consuming. We!€ ve fact that some of the work for you and selected some popular mobile games which support frame rate of at least 90 Hz. To try and improve your mobile gaming experience. Let's take a look at Android games using 90Hz and 120Hz screens. 1. Minecraft (120 Hz) img source: apkmenu.com Minecraft is a fun game with an open world where you can collect resources and build what you want. This game is great fun, and even more fun when playing with friends. It may seem like a game made for kids and kids like them, but trust me, once you start playing this game, it is likely that you will return to it every day. The game supports displays with high refresh rates up to 120 Hz with no problem and offers ultra-smooth navigation in-game. So if you have a phone with a screen size of 90 or 120 Hz, you can enjoy Minecraft with smooth controls. Genre: Simulation Price: \$ 7.49 Available at: 2012 Download: Google Play Store FPS: 120 frames per second 2. Transmission Club: real shift (120 Hz) The Android Gear Club game also supports frame rates up to 120 Hz. With support for more high frame rates up to 120 Hz, this game will be even better with the already excellent graphics. Your contribution will improve even touch. The game has a good list of different cars and tracks to choose from. The game menu and user interface look very smooth and pleasant to use on screens with more high refresh rates. If you!€ € ve never played Forza or Gran Turismo, you!€ love Gear Club on the mobile platform too. Discover other racing games. Gender: Race Price: Free Available at: 2016 Download: Google Play Store FPS: 120 frames per second source img 3. Brawl Stars (120 Hz): epingi.com Brawl Stars is a 3v3 online multiplayer action game Battle Royale, where you can take on other fans battle. You can choose between action and various game modes for battles. There are weekly and monthly tournaments that you can participate and be rewarded. It now supports displays with more high refresh rates up to 120 Hz. The game objective is to protect your base of different types of zombies. You can plant different plants in your lawn that are ready to attack the zombies as they appear. You can also improve your plants to make them more effective in defense. The game Even different online multiplayer modes where you can attack your friends!€ bases. The game is developed by Electronic Arts, and a new Plants vs Zombies game should be released soon. Genre: Strategy Price: Free Available at: 2013 Downloads: Google Play Store FPS: 120 Frames per second 5. Assassin S Creed Rebellion: Adventure Role Play (120 Hz) This is a Creed mobile game ass in which everyone Assassins are in a game. You To collect over 50 killers, manage your fortress, update and evolve your killers and even trained in combat. You can also send your assassins on hedging missions in different parts of Spain. There are also limited events that you can participate to get the maximum score and beat other players in the online ranking. This game of Ubisoft, like all Ubisoft games, has a monthly premium subscription that allows you to earn prizes more and participate in exclusive events. 6. CSR Racing 2 (120 Hz) IMG Source: Naturalmotion.com CSR 2 is also a 120Hz Android game. The good old one-touch racing game for Android can now be reproduced at higher frames rates, up to 120 Hz. The game is quite fun if you like to build and customize cars. The game has many game modes, such as a career mode, team battles, head-head multiplayer breeds and boss races. You can also restore the classic cars, which you can earn by completing daily tasks and participate in tournaments. Even if the game is fun, sometimes you will have to sweat to earn money and prizes in the game. CSR 2 was developed by Nature Motion Games. 7. Pubg Mobile (90 Hz) Pubg Mobile is one of the best and most popular battle Royale games available on mobile devices. The game does not need introduction. You and 99 other players jump out of the plane and fight shooting other players for the first place, or what is called in Pubg the winner's chicken lunch. This type of game can be played alone, as a couple or in groups. You can play Deathmatch as a team and even have Royale Barbatte games with your friends and other team members. You can play for a number of reasons, which change every two months. The game has also enabled 90 FPS mode for some ONEPLUS devices and will be gradually available for all devices that can reproduce at this high frequency. You can expect the game of Battlegrounds Mobile India to support even 90Hz. PubG is one of the best 90 Hz games for Android. Find out how to enable 90Hz in mobile pubg. 8. Call of Duty: Activision Mobile (120 Hz) ensured that mobile players can also try the call of duty, and so they released the codm game. This game is similar to PUBG, but differs in the Battle Royale and Team Deathmatch mode. And of course you have playable maps from other Call of Duty games. So why codm is on this list? With the new update, you can play this Android game at 120 frames per second. He is currently only available for Sony Xperia 5 II and will gradually be unrolled to other compatible devices. 9. Underlords DOTA (120 Hz) IMG Source: Digitaltrends.com If you always wanted to play dota on your phone, then this is the game for you. And this at a high update rate up to 120 Hz. You and your team you have to defeat the enemies and take over the city. You can play a standard game, a quick elimination game or even a cooperative duel. The game season 1 is currently being distributed with a passage of a season. Everything depends on your strategy, and if you can, you can easily win. If you just want to practice your moves and strategies, you can always play with offline robots. The game also supports a higher frequency, up to 120 fps. Genre: Strategy Price: Free Available at: 2019 Download: Google Play Store FPS: 120 Frames per second 10. Mekorama (120 Hz) Mekorama is another Android 120Hz game and a nice puzzle game in which you drive your robot through different Types of labyrinths, opening and closing of different waypoints to achieve the end and reach the next level. The game has a pretty good graphics, as well as light background music that is pleasant from While checking the robot. The game does not take much space on your phone and the installation dimensions are quite small. The game is well supported on the highest copper screens, which is an advantage, as you can rotate and move around the fairly fluid labyrinth, which is a good thing. 11. Final Fantasy Brave Exvius (120 Hz) If you are a fan of the Final Fantasy series, we love this first cell phone In addition to the top frame rate, the game is free to play and comes with optional in-app purchases. As similar MMORPGs, you have to combine magical abilities of your character with tactical skills to defeat the various enemies. FFBE is a 120Hz Android game that allows you to enjoy a smooth role experience. 12. Pok!À © Mon Go (120 Hz) This is one of the most popular games for Android with 120Hz support. Join other trainers from all over the world as you discover Pok!À © Mon exploring the world around them. Despite the ongoing blocks, Pok!À © Mon Go remains the favorite fan game based on the animated series. The only negative side of the game is that it may not work on some mobile devices, even if they have the versions of the operating system required. Genre: Adventure Price: Free Available from: 2016 Download: Google Play Store FPS: 120 Frames per second 13. Vainglory (120 Hz) IMG Source: VaingloryGame.com Vainglory is one of the most popular Moba games on mobile devices. It has a great graphic and very reactive controls, which is normal for a PC game. And this is not all: you can play with anyone on PCs, mobile or Mac devices, giving you a seamless playing experience and open. This Android game supports a 120 Hz screen, then prepared for a fluid gameplay. Genre: Strategy Price: Free Available in: 2014 Download: Google Play Store FPS: 120 Frames per second 14. Ballz (120 Hz) Ketchapp developers are known for their excellent puzzle games, and Ballz is another game of the same Developer, and does not disappoint. In this interactive game, you have to break the bricks before they reach the bottom of the screen. Fun for children and to challenge your friends to see who has the most points. Although it is a two-dimensional ball game, the 120Hz support makes it an immersive and exciting game. 15. Marvel Game of Champions (90 Hz) MCOO is a 90Hz Android game with a lot of action. Another great game to play if you are a fan of wonder. There are many wonderful games on Android, but this seems to be a success for Android. In the game, you have to collect your favorite avengers heroes in a group to hire other superheroes and enemies and prepare for an epic comparison. 16. Modern combat against (90Hz) Another great match among the many available in the kind of Battle Royale. This online PVP game offers a fun and innovative combat game experience. The game has numerous maps that allow you to immerse yourself in combat action with some of the best FPS graphics on the console with extraordinary images. Modern combat against is an Android game that supports a 90 Hz refresher frequency. 17. Pacman (120 Hz) IMG Source: apkpure.com Anyone who grew up with arcade games knows that this classic arcade does not need introduction, and Many players will be happy to know that it sounds at a high frame rate. The updated edition has new labyrinths and wallpapers of the classic arcade game to create a feeling of an old school. You can enjoy the Pacman games with a greater refresh rate, up to 120 Hz. 18. Altos Odyssey (120 Hz) As the high adventure ", which also supports a high frame rate, Odyssey is a more realistic version of the Famous board game. Takes you through an open and unexplored desert and reveals its many secrets. The Android game supports an update frequency up to 120 Hz, making it a very pleasant game to play. You can try both the high and high adventure The Odyssey of High. 19. Grimvalor (120 Hz) In this role-playing game you have to fight your way through countless hordes of obscurities to defeat the storm guards of the King Volor. With a high frame rate, this is a visually extraordinary game. In which you take control of a solitary warrior on a mission Free a kingdom corrupted by the grime of evil. 20. Battlegrounds Royale (120 Hz) Battlegrounds Royale puts a crazy and fun ride on the usual Games of Battle Royale. This is an informal shooter that everyone Amerino. With 32 players and lasting battles between 3 and 5 minutes, the non-stop action and the carnice! No waiting in the membership, no complicated complicated menus navigate. It's very simple: the parachute jump, shoot, loot and survive! With an Android phone from 120 Hz, you will also enjoy even more fun with this game. Mentizioni honorable There are also some other games on this list that you would not expect to support a more high frame rate playback. 21. Temple Run 2 (120 Hz) IMG Source: laptrinh.com It!€ € à is a game that not many people expect because © is quite old but Imangi Studios has ensured that the game functions optimally on these screens with a higher refresh rate. All you need to do in the game is run your character through a maze that is full of different obstacles such as branches and even fire. There are also broken paths and a cart where you have to dodge the various branches of the trees while collecting coins and upgrades. And since the game requires frequent swiping and dragging, these actions will be much more fluid thanks to the support frame for a more high, up to 120 Hz. 22. Surfers subway (120 Hz) Those who have said that run and dodge obstacles on railroad tracks is no longer fun should reconsider. Now you can play this great old game to 120 fps! Sure, it's weird to play a simple game in which you drag and simply drag at a rate of frames so high, but it's that very fluidity that makes the game more enjoyable, not to mention the ultra-fast response of " input. And so you will also get more points than standard screens to 60Hz. 23. Need to speed No limit (120Hz) Electronic Arts decided that no limit need better upgrade, so have added support for more high frame rate. Just like in NFS games, you can run, move freely customize and assemble several cars and everything else. Most racing games is more fun to play with more high copper frames and a better entrance. There are several game modes and even an online multiplayer mode. 24. World of Tanks: Flash (120 Hz) You are viewing an online game in the genre of shooters of the tank, which can be played at a frame rate of 120 World of Tanks Wargaming Group: Blitz is a fun game in the tank where you and your team go to war to destroy your opponents in a game of 7v7. You will be able to use the tanks that are historically accurate to those used during the Second World War. Second World War. There are many awards and events in the game you can earn and participate. You can also join a clan to participate in various clan wars and earn bonus rewards. 25. Super Mario Run (120 Hz) IMG Source: androidauthority.com Nintendo does not want to lose the support for the more elevated and made Super Mario Run games playable frame rate at a frame rate of 120. This is a fun game where games like Mario or another character from the Mario games to run and overcome various obstacles in the game, while collecting coins. There is also an online leaderboard where you can see the scores and, if possible, to beat them. Ideal for games with more elevated themes. Supplement There are many Android games to 90Hz and 120Hz, but the most popular ones have not added this function. With many Android mobile devices running at 90Hz, more and more apps and games will start to make it as default 60Hz screens slowly disappear. Have a look: You probably know that most of the high equipped with a 120Hz panel-end Android devices has an option called !€ € à, ~!A 120Hz mode ... This mode gives you more fluid experience, but the frame rate sacrifice. It's fine for most games, but does not work for everyone. What if you want to play games that do not work well with 120Hz mode? What happens if you play FPS furniture on a daily basis, and don't want to be without them? Well, you will love it! You can play most FPS games at the 120Hz mode without problems on the most popular high-end Android devices! More information on 120Hz Android 2020 games and let us know what you think.
