Geometric Proof Properties/Postulates/Definitions/Theorems

|                               |            |  |  |
|-------------------------------|------------|--|--|
| Commutative                   | CMA<br>CPM | $AB+CD \rightarrow CD+AB$<br>$AB \cdot CD \rightarrow CD \cdot AB$   | $(m\angle 1 + m\angle 2) \rightarrow (m\angle 2 + m\angle 1)$  |
| <b>Properties of Equality</b> |            |  |  |
| Reflexive                     | RPF        | $AB=AB$  | $m\angle 1 = m\angle 1$  |
| Symmetric                     | SPF        | $(AB=CD) \rightarrow (CD=AB)$  | $(m\angle 1 = m\angle 2) \rightarrow (m\angle 2 = m\angle 1)$  |
| Transitive                    | TFP        | $(AB=CD \text{ and } CD=EF) \rightarrow (AB=EF)$                     | $(m\angle 1 = m\angle 2 \text{ and } m\angle 2 = m\angle 3) \rightarrow (m\angle 1 = m\angle 3)$   |
| Substitution                  | ASF        | $(AB=CD) \rightarrow (AB+EF=CD+EF)$<br>$(AB=EF) \rightarrow (AB=CD)$ | $(m\angle 1 = m\angle 2) \rightarrow (m\angle 1 + m\angle 3 = m\angle 2 + m\angle 3)$<br>$(m\angle 1 + m\angle 3 = m\angle 2 + m\angle 3) \rightarrow (m\angle 1 = m\angle 2)$ |

• Reflexive, Symmetric, and Transitive Properties of Equality can be used for Congruency with segments and angles. Replace the "=" for Equality with a "≅" for Congruency.

|                                    |   |
|------------------------------------|---|
| Definition of Congruent Segments   | $(AB=CD) \rightarrow \overline{AB} \cong \overline{CD}$ or $(\overline{AB} \cong \overline{CD}) \rightarrow (AB=CD)$              |
| Definition of Congruent Angles     | $(m\angle 1 = m\angle 2) \rightarrow \angle 1 \cong \angle 2$ or $(\angle 1 \cong \angle 2) \rightarrow (m\angle 1 = m\angle 2)$  |
| Definition of a Midpoint           | $M$ is the midpoint of $\overline{AB}$ if $AM = MB$ or $BM = AM$ or $AM = \frac{1}{2}AB$ or $MB = \frac{1}{2}AB$                  |
| Midpoint Theorem                   | $(M \text{ is the midpoint of } \overline{AB}) \rightarrow \overline{OM} \cong \overline{OM}$                                     |
| Definition of a Right Angle        | $(\angle A \text{ is a right angle}) \rightarrow (m\angle A = 90)$  |
| Definition of Perpendicular Lines  | $(\overline{AB} \perp \overline{BC}) \rightarrow (\angle ABC \text{ is a right angle})$   |
| Definition of Supplementary angles | $(\angle A \text{ and } \angle C \text{ are supplementary}) \rightarrow (m\angle A + m\angle C = 180)$                            |
| Definition of Complementary angles | $(\angle A \text{ and } \angle C \text{ are complementary}) \rightarrow (m\angle A + m\angle C = 90)$                             |
| Segment Addition Postulate (SAP)   | $(M \text{ lies on } \overline{AB}) \rightarrow (AM+MB=AB)$   |
| Angle Addition Postulate (AAP)     | $(Q \text{ is interior of } \angle ABC) \rightarrow (m\angle CQB + m\angle QBC = m\angle ABC)$                                    |
| Definition of Vertical angles      | $(\angle A \text{ and } \angle C \text{ are vertical angles}) \rightarrow (m\angle A = m\angle C)$                                |
| Vertical Angle Theorem             | $(\angle A \text{ and } \angle C \text{ are vertical angles}) \rightarrow (\angle A \cong \angle C)$                              |
| Supplement Theorem                 | $(\angle A \text{ and } \angle C \text{ are linear pair}) \rightarrow (\angle A \text{ and } \angle C \text{ are supplementary})$ |
| Definition of a Ray                | $(\overline{AB} \text{ is bisected at point } X) \rightarrow (\overline{AX} \cong \overline{XB})$                                 |
| Definition of an Angle Bisector    | $(\overline{BD} \text{ bisects } \angle ABC) \rightarrow (m\angle ABD = m\angle DBC)$   |

### SALITANG MAGKASALUNGAT

Gumuhit ng tuwid na linya upang itambal ang dalawang salitang magkasalungat.

- |              |           |
|--------------|-----------|
| 1. madilim   | malambot  |
| 2. masaya    | kanan     |

Free online 8th grade math worksheets.

@MathCoachCorner/Twitter Students at every degree level can benefit from playing interactive matemtic games online. From older students to teach older students arithmetic to more advanced games that perfect the skills of students in teaching and teaching, Online math games teach children in all kinds of san the fun tools they need to improve their math skills. Check out these top online resources to get started. A Rayna160; ABCya Parents and teachers can find games of mathematics in ABCya for children in the K until sixth sã. Each of the games has separate categories with groupings by degree, making the site easy to navigate based on the interest, age and needs of the children. The games of matemAAA can also be classified based on topics such as holidays and different sets of habilidades. ABCyaGames/Twitter Since its beginning in 2002, Starfall has continued to bring a wide range of learning activities to young learners, and this includes a robust collection of matemática games. The founder, Stephen Schutz, works with a team of animators, artists, designers, educators, music, programmers, quality engineers, systems experts and writers to make Starfall a fun educational option for children in the kindergarten at the third sã. Starfalledu/Twitter Hooda Parents and educators who are looking for a comprehensive resource to help students throughout the teaching of youth with addition, subtract, multiplication, division, fraction, whole and all can find lots of fun games of matemática in Hooda. The games can be sorted by grade as well as type of skill such as fractions and division couldn39@ divertidas. fun, the CoolMath network of websites has been proven them wrong since 1999. With websites like coolmathgames. with a wide variety of games that focus on numbers, strata Policy, logic and other general or specic competences, ityas for students all the way to the Mother Education Hate to find fun on line mathematics games to improve your practical skills algebra and eyelids. Activities up include first aid calculus@ TheRealCoolmath/Twitter Girl Go GamesWhen girls want to find fun ways to improve their math skills It can be done by playing interactive games of mathematics on line. The games on websites like Girl Games are for everyone. Sure, but often have a little extra appeal for young ladies. You can reduce the games by interest or focus on the specific types of mathematical skills you need to develop. These games are not only free, but they come in a variety of genres suitable for different ethnic groups, from elementary to manual education dio. Some spy/Twitter Reflection: GameStudents using Reflex start playing engaging games designed to build mathematical fluency. Even better, every time they succeed, they get tokens of reward. This old system of offering a reward, helps them achieve actual fluency and improve their global mathematical skills. For official purposes, teachers, schools and district administrators can receive comprehensive reports of Exploring Learning that make it easy to monitor the progress and use of each student. ExploreLearning/Twitter Duckster Fast MathPlaying an on line fast math game allows students... Very quickly. Every time they answer a question correctly on the website, a green mark appears. When a question is answered incorrectly, a red X appears. Answering questions accurately gives them more time in the next problem as a reward. The site offers many practical opportunities for students who have to take quick fact to quizzes every week. DuckstersKids/Twitter MORE QUESTIONSANSWERED. CCO/Pixapopz/Pixabay In the midst of all school matters, mathematics many it is difficult for young students. The reality is that math problems can help students learn to navigate the world around them in some really practical ways, strengthening rational thinking, problem solving and abstract thinking. Think about going to the grocery store and need to calculate the price for a pound of mass food, for example. Or think about a 25% sale off at the student's favorite sports store. Many students are not quite pre-emptic in applying matemática, and they may feel that they cannot succeed in it. Browse the world of matemática with ease Fortunately, there are many cool matemtic games available online for free, and they are so attractive that people who don't like matemática can simply change their mind about it. Parents and students can easily access them to sharpen math skills. We find some of them and share the details here about cool matemtic games, ABCya and Hooda matemtic games, which can contribute to students being able to navigate the world of matemática more easily. Coolmath Games helps everyone train their rebros, using logical, thought and matemática. The site takes a diverse approach to learning and presents challenges in various years. They boast that users won't even know that they are getting a mental workout when they are using one of the hundreds of games on the site. The games are organized according to skill types, including logical, strategy, number and mobile. Which, of course, leads to the name & cool when it to be the right kind of challenge. Cool Math offers free online math classes, math games and math activities. Includes calculus. Additional tools include online graph calculators, geometry art, polyhedra, fractals and areas specially designed for parents and teachers, so everyone can participate in the learning process. The site as an amusement park to learn matemática, and this is cool, indeed. ABCyA Games for Online Matemática Online Matemática Games AbCya popular way to students sharpen their math skills. The site offers a variety of educational games and activities for school-age children. Games are organized by categories of subjects, such as number, number, and holidays, and for the classification level from the school to the fifth year. In addition, many of the free games meet the requirements in the common no.c. State Standards Initiative. The site very popular due to its content and its easy interface to use. In addition addition, the name intelligent and easy to remember. ABCya has a series of applications for the practice and learning of moving matemtics. Due to the success of these applications, the site is ranked as one of the Top 20 Publishers in the Education Category of iOS App Store and one of the 25 Best Publishers in its Children's Category. Who wouldn't want to try to learn more about matemática with games like Percent Panic, Creator of Secret Messages?and State Bingo?Hooda Math Games Offer Creative LearningHooda Math Games another popular and free online site for math games, launched to the infant through school. Like other sãtos, students who interact with the games can engage with them to learn more about matemtics in creative ways. They can learn how to assemble a machine, buy clothes or build a bridge, for example. Users choose level and category, including language, geometry and technique, and then choose the starting unit, such as addition, subtraction, multiplication, division, fractions, integers and lgebra. The site offers more than 500 webbased games and more than 50 mobile games that can be accessed securely through any browser and from any device. Explore Free Online Matemáticos ResourcesIt's literally an endless supply of free online medical resources for parents and students who need a little brush-up of matemática or who just want to have fun. Enjoy the exploration of the sitands and gain trust in the competitions that easily transmit to the real world. MORE DA LIFE!23.COM LIFE!23.COM Free 2nd Grade Resources Online.
