Drift First Appearance: Season 5 Rarity: The legendary drift was taken of Fortnite after being sucked through a split in À è à, - À "Real World". It has a lot of unlockable styles, but the previous versions of him are cleaner and less bulky, making it a much better choice for competitive players . Ikonik First appearance: Season 8 Rarity: EPIC The first Samsung promotion skin, Ikonik is based on K-Pop stars and arrived with its own emotes, scenario. Even if it is just the rare skin, seeing someone to rock means that they take a lot of fortivated seriously.
