How to bypass Google Account Verification verification FRP frp bypass has stopped android 7.0 The first account verification for mobile phones was introduced by Google on Samsung mobile phones, therefore people needed to know how to frp bypass ... Google Account Manager 7.0 APK is used for bypassing the FRP Lock in Android Device. Are you using the 7.0 Nougat version of the Android and have a problem with FRP Lock? Then this article is for you because today I'm going to show you how to Bypass the Google FRP Lock using Google Account Manager 7.0 APK. So in this article, I will show you to download google account manager.apk and use the app to bypass FRP lock step by step. What is Google Account Manager 7.0 APK? Google Account Manager 7.0 APK is an Android application used to bypass or delete the Google account from your device. It only works on the Nougat version of Android. It became popular because unlocking the device from FRP Lock is more comfortable than other apps. Note: If you're using newer versions than 7.0 please try Technocare APK or Raposo FRP APK. What is FRP Bypass? FRP Bypass is a process to bypass the Google account from a locked Android device. Using FRP Tools Like Technocare APK, Vnrom Bypass, and Google Account Manager, you can easily avoid the issues with Google account from the device. A few years ago I had a Nexus 6 running on 7.0 Nougat version somehow it got FRP locked. So at that time, I wasted the whole day to find the solution, then I saw the app called Google Account Manager that solved my problem. APK Information Name Google Account Manager 7.0 APK Version v2.0 Size 12.2MB Feature Bypassing FRP Locks Package Name com.google.accountmanager.Price Free Advantages: You can easily bypass google account in one click. Support all Samsung Devices running 7.0 nougat. Also support some MTK Devices. How to Download Google Account Manager 7.0 APK? Download the Latest Google Account Manager from the below link- How to install Google Account Manager 7.0 APK? Download the Google Account Manager 7.0 app from above. Install the app like you install other apps. Open Google Account Manager and add your account. Now it will automatically remove the old FRP locked account. Hurray! You have successfully bypassed FRP Lock. Alternatives to Google Account Manager 7.0 APK Here is the famous list of the apps which help to bypass FRP Locks Technocare FRP Bypass APK Latest 2020 VnROM Bypass APK Download For Android Conclusion If you are getting any problem while bypassing the google account, you can check the alternatives if the problem persists then you can connect with us on the comment section our team will try their best to solve the problem. Although Google introduced the Factory Reset Protection (FRP) with the aim of making stolen devices useless to the thieves, the feature does affect even legitimate Android device owners. For example, if you forgot the password for your Google account or purchase a secondhand Samsung device featuring the previous owner's Google account, you will have issues factory resetting the device. The good news, however, is that you can bypass FRP on Samsung Android 7.0, as well as other Android versions. In this article, we will show you how to bypass the FRP easily. You will have a higher chance of bypassing the FRP permanently if you use Lockwiper (Android). This tool has produced good results on various Android device models running Android 2.3 all the way to Android 9.0. It removes the Google account whose password you do not know. This allows you to sync your device with a new Google account. If you purchased the Samsung device from someone else, you will eliminate the chances of being blocked from using the device remotely. Also, you will ensure that the original device owner does not track your device usage. While it helps get you out of complicated situations, LockWiper (Android) features a user-friendly interface. To bypass FRP on Samsung Android 7.0, all you will have to do is following the onscreen instructions. 7,500,000+ Downloads Key Features of LockWiper (Android) that helps bypass FRP lock easily: Enables you to bypass the FRP lock without the Google account or the password. After the bypass, you can use a new account on the device. Gives you re-access to the full features available on the Samsung device. Ensures that the previous account cannot block or track you from using the device remotely. Also provides to unlock all Android screen locks, like PIN, passcode, pattern, fingerprint and face lock. Try It Free How to bypass FRP on Samsung Android 7.0 Using LockWiper (Android)? Step 1: Download and install LockWiper (Android) on your computer, launch it and then select "Remove Google Lock (FRP)". Step 2: Connect your device to the computer after clicking "Start". Step 3: Choose your device information to download a data package. Step 4: After downloading the package and preparing the device for installation. Step 5: Follow the onscreen instructions to download the device's firmware. When it's done, LockWiper (Android) will start to unlock FRP lock. Step 6: Wait for a couple of minutes while LockWiper bypasses the FRP Lock. Then you can freely access your device now. How to Use APK to Bypass Samsung Android 7.0 FRP? If you prefer using an APK file to bypass the FRP lock on your Samsung device, you should follow the steps in this section. For this method to work, there are some pre-requisites which need to be fulfilled beforehand. The pre-requisites include: Invest in an OTG cable. Ensure you have a USB flash drive. Get a computer. After assembling the above requirements, go ahead and follow the steps outlined below to bypass the FRP lock: Download a Samsung FRP Bypass APK on your computer. Connect the flash drive to the computer. Copy the FRP bypass APK to the flash drive. Turn your Samsung device on and follow the initial setup steps. When you reach the FRP lock screen, use the OTG cable to connect the flash drive to the Samsung device. The device should launch the File Explorer. Locate the file you copied to the flash drive in step 2 above. Tap on it. When the Samsung device tells you that the source of the APK is not recognized, click Settings on the popup. Turn on Unknown Sources to complete the installation process. After installing the APK on your device, click Open. The application will take you to the Samsung device Settings. Locate and tap on Backup and Reset. Tap on Factory Reset. Confirm that you would like to factory reset the device. This should bypass the FRP. Cons of this method: The method has requirements you may not have access to. The method may not work on the latest Android versions. Syncing your device with a different Google account may be impossible after using the APK to bypass FRP. For some people, the steps are complicated. If you do not download an FRP APK ideal for the Android version on your device, bypassing the FRP will be impossible. Conclusion: The fact that you do not have the credentials for the Google account used on your device does not mean that factory resetting the device is impossible. You can use the methods outlined above to bypass the FRP without a Google account or a password. Compared to the APK method, LockWiper (Android) has an easier process and higher success rate. Use the LockWiper (Android) free trial version to see whether the tool can work for you. Try it Free Easy FRP Bypass 7.0 APK Download and install in your smartphone to remove Factory Reset Protection lock now. FRP bypass apk helps to remove FRP lock easily.
