Management Talent ADAPTATION
You are able to adjust to changes in the workplace while maintaining a positive demeanor.

Adaptation includes the following competencies:

- Preparing for change**
 - Anticipating change and planning for possible contingencies which involves:
 - Anticipating problems and choosing forward thinking solutions
 - Developing plans to accomplish the work
 - Identifying and developing solutions to potential problems
- Responding to change**
 - Effectively reacting, responding, and adapting to change which involves:
 - Persevering through ambiguity and change
 - Remaining calm and level-headed in the midst of change
 - Rebounding from the challenges associated with change
 - Adjusting to change and integrating changes into existing plans and procedures
- Embracing uncertainty**
 - Demonstrating composure and resilience when faced with setbacks, ambiguity, and stressful situations which involves:
 - Maintaining productivity during times of change
 - Operating effectively in stressful situations and procedures

Executive Summary

To date, many of our branding efforts have been mostly ad hoc, driven by employees who took the initiative to launch channels relevant to their roles. Posts were infrequent, and did not follow any particular strategy. Sporadic posting meant that our social media presence was inconsistent and focused on clearing up negative accounts.

In 2019, the social team would like to focus on roles, health, and the future of our business strategy and a summary of our social media efforts in the next six months.

Verify you are redirected to the Emergency Reporting dashboard. If you have never successfully signed in to the new Sign In page (), but you had access to Emergency Reporting prior to December 2020 AND you don't know your old username, the best practice would be to request a new invite from your ER Administrator. Follow these steps to create a new ER User Identity after reaching the "Create User Identity" page. 1. After reaching the final step of creating a User Identity, enter your full name, a username, and create a new password. NOTE: If you select New Email Address on the screen below, check the box at the bottom to save this email to the person's contact information. 11. Once unlocked, you can attempt to sign in again. FAQs Question: What are the Username requirements? Answer: Cannot contain these characters: @: ; \ . () [] { } Cannot begin with a period Cannot contain a space Password Requirements: At least 8 characters At least one Upper Case At least one Lower Case At least one Number At least one Special Character At least 8 characters No more than 64 characters Password you haven't already used Question: If my Username meets the requirements do I have to change it? Answer: No. Question: If my Password meets the requirements do I have to change it? Answer: Yes, it is best practice to change your password. Question: Do I have to create a different Username? Answer: No, not if it meets our requirements. Question: Does each Identity (Username) need to be unique across the system? Answer: Yes, your Username needs to be unique to you. Question: What is the new URL to bookmark? Answer: The first time you sign in after 9PM PST on December 6, you will continue to sign in at . Select the "Sign In" link at the bottom of the Create User Identity page. Sign in using your primary Username and Password. You will land on the Home Page/Dashboard of the new ER account. For future sign ins, you will need to select the appropriate Emergency Reporting account after sign in. Question: Can a period () be used in the Username? Answer: Yes, but it cannot begin with a period. Question: With this upgrade in security features, what advantages does it offer? Answer: Protection of data is the #1 advantage. Question: Do we have to change our email address? Answer: No, however you will need to change your Username if you currently use your email address as your Username. Question: Will this update affect our CAD link? Answer: We hope this won't cause any disruptions in the CAD link, but if you notice any, please wait until the end of the maintenance period and then contact your dispatch center and ask them to resend any missed calls. Question: If I have ER shortcuts on my devices do I need to update them? Answer: Yes, the URL to sign in will change after the update on 12/6 so you'll want to update your devices. Question: Will security Roles and Permissions change? Answer: No, they will stay the same. Question: My Username was created by ER staff and it's my email. Copy the 6-digit code and paste it into the "Verification Code" box on the Change Email Address page and click Verify Code. Click Create User Identity and you should be redirected back to your Emergency Reporting dashboard. 1. 4. Linking Multiple Agencies to One User Identity With ER User Identities comes the ability to link a single User Identity to several different department accounts. Click Send Invitation. The invitation email will look like this: What to Do if You Are Locked Out of Your Account If your department account is locked because of inactivity, you need to contact your department's administrator to be unlocked. If your ER User Identity is locked because of too many unsuccessful sign-in attempts, your Identity will automatically unlock after approximately five minutes. A subsequent failed sign-in attempt will lock your Identity for one minute and longer for any additional failed attempts. 2. It does not need to be the same email address at launch, but if you have any issues during migration, you will want to make sure your email for password reset is properly configured. Question: How do I know who the Primary Admin is on my account? Answer: If you are an Administrator already, navigate to the Admin Module under security and select "Securityselect" Security Primary Administration Role. Question: When they system verifies my email, who is the email sent from? Answer: Microsoft, on behalf of Emergency Reporting Question: What if I don't receive the email to verify my address? Answer: Check your junk filter and confirm your organization is not blocking this sender. Question: What if I'm getting an error or can't get to the correct page? Answer: Make sure the following URLs are not being blocked by a firewall from within your network and use the troubleshooting tips below: login.emergencyreporting.com cdn.emergencyreporting.com Please have your IT/Network Teams check if these URLs are available by running each of the following commands in Windows PowerShell: test-netconnection cdn.emergencyreporting.com -Port 443 test-netconnection login.emergencyreporting.com -Port 443 If the result of "TcpTestSucceeded" for each of the above PowerShell commands is "True", no further action is necessary as you should be able to sign in successfully to Emergency Reporting after December 6th. If the result of "TcpTestSucceeded" for any of the above PowerShell commands is "False", please work with your local IT and/or Network Administrator to make sure your users can access the above URLs as they are required for our new authentication system to work. We're Here to Help. If you experience any issues with the new Sign In, please contact Support. Call: 1 (844) 253-9337 Email: support@emergencyreporting.com Click Send Access Invitation. 9. Once you've changed your password, all you need to do is bookmark the new Sign In page (). Click the Edit icon. 5. Perform the following steps to link all of your departments to a single User Identity. Requirement: You must already have at least one functional ER User Identity in the system in order to perform the following steps. 1. After migrating your username or creating a new username successfully, you will be redirected to . Please read this entire blog post. Forgot Your Username? At the new Sign In page, you will be prompted to change your password. Copy the 6-digit code and paste it into the "Verification Code" box on the Create User Identity page. Navigate back to and Sign In again. 2. Click Verify Code, confirm you receive a green "VERIFIED" message and click Continue. Confirm your Identity. In the upper-right, click Logout. Sign in to your Emergency Reporting account. Under "System Access," select Has access. If your username meets our new criteria (we'll go over this), you will be automatically migrated to our new Sign In page. If you are the only Administrator at your agency and you have forgotten your username, please contact Emergency Reporting. 6. You will first need to determine where you are at in the migration process. This email will be sent from "Microsoft on behalf of Emergency Reporting." 5. 6. Navigate to the Security tab for that person. Contact an Administrator of the additional ER account you would like access to and request they send you an Access Invitation. It contains all of the information needed to navigate this change. If the Email Address is empty, click New Email Address and enter the new email address. An ER Administrator can see an ER User Identity associated with a Personnel Record by navigating to Administration > Personnel List > [Select/Edit Personnel] > Security tab > User Identity. If the email address is already in the Email Address dropdown, move to the last step. (This dropdown is populated from the Contact Info tab under "Personal Contact Information"). 10. 8. Go to the Sign In page. 7. Username/Password Requirements In this section, you will find the Username and Password Requirements for the new authentication model. (These requirements will be displayed when you first attempt to sign in.) Username Requirements Cannot contain these characters: @: ; \ . () [] { } Cannot begin with a period Cannot contain a space Password Requirements

At least one Upper Case At least one Lower Case At least one Number At least one Special Character At least 8 characters No more than 64 characters Password you haven't already used How to Change Your Password 1. After being redirected to the Sign In page, click Sign In. 5. With our new authentication model, you can use a single User Identity to sign in to them all. 5. If you have forgotten your username, we have solutions for you. Click Verify Code, confirm you receive a green "VERIFIED" message to continue. If your username does not meet the new requirements, you will be prompted to create a new username and password (see details below). 3. Click Forgot Password. 3. If your ER Administrator does not see a User Identity listed for you, they can click "Send Access Invitation" to send you a new invite. Emergency Reporting (ER) is growing, and as a software company, we always strive to adhere to the most up-to-date, advanced technologies for security. 5. 2. You are trying to migrate to our new sign in process and your current username does not meet our new criteria. Go to My Profile on the lower left-hand side. 3. Enter and save your new password. Verify the user has the correct Role/Permission configured and click the Save icon. Enter your new email address and click Send Code to verify your new email address. 6. Creating a New ER User Identity There are two scenarios where you need to create a new ER User Identity. 8. 7. Once the new email address is verified, click Save New Email Address. Access your email account and look for an email from "Microsoft on behalf of Emergency Reporting." 7. If you have successfully signed in to the new Sign In page () at least once, ask the ER Administrator at your department if they can locate your username for you. Navigate to the Personnel section within Administration. 2. Again, an ER Administrator can send a new Access Invitation by navigating to Administration > Personnel List > [Select/Edit Personnel] > Security tab > User Identity and clicking "Send Access Invitation". This blog will guide you through our new sign in experience. Click Personnel List. 3. You will receive an email with the subject line: Emergency Reporting account email verification code. Locate the Personnel Record you would like to send an Access Invitation. (NOTE: If the Personnel does not already exist, a new Person must be added to the Personnel grid before this step.) 4. In the past, you needed three separate sets of credentials to sign in to those different accounts. In My Profile, click Change Email for Password Reset. 4. Follow the steps below to send an Access Invitation. 1. The ER User Identity (Username) can be found in the User Identity table. With this in mind, ER has launched a more secure way to sign in to your account. Your new bookmark AFTER migration time will be . Question: When do I need to send Access Invitations (Invites) Answer: No invites need to be sent to current users, only new users after 12/6/2020. Question: For those who receive an Access Invitation, do they create their own Username/Password? Answer: Yes. Question: Will there be a password lock now? Answer: Users that attempt to incorrectly enter a password a significant number of times will be locked out of the system. Question: Do I have to update my home page settings? Answer: No. Question: How do I link multiple accounts? After creating or updating your primary User, the 2nd department will need to send you an invitation. You will receive an email Invitation to join their Emergency Reporting department account. Select "Accept Invitation". How to Change Your Email for Password Recovery If you would like to change the email address associated with your ER User Identity, follow these steps: 1. When prompted to Select a User Profile, select an account from the list to be signed into that Department account. Enter a valid email address in the Email field and click Send Code. We'll cover: Migration: What to Expect Proceed to the usual Sign In page (and sign in using the same username and password you use today. Verify you have received an email including a verification code in your inbox. For example, say you volunteer at three different departments. Inviting Personnel to Access ER With the new Sign In experience, a Department Administrator can send an Access Invitation to personnel, inviting them to join their ER department account. Once you receive the Invitation to join Department email in your inbox, click Accept Invitation. Enter your Username and Email and click Send Code. 4. Do I have to change it? Answer: Yes, you will have to change it. Question: When I update my password and enter an email for the verification code, does that email have to match the "email for password reset" that is currently logged under the security tab on my info in ER? Answer: It would be a best practice to update your "email for password reset" prior to migration. After landing on the Create User Identity page, scroll to the bottom of the page and click Sign In. 4. Copy the 6-digit code and paste it into the "Verification Code" box on the ER Reset Password screen. You are new to ER and just received an invitation to access your department's ER account.
