DESCRIPTION: Dragons, We are used to the image of the dragons thanks to the representations that numerous cultures have performed from this creature. SegĀ Ā people who imagine it, the DRAGĀĀN can be, alternatively, synonymous of courage, symbol of power or allegory of the solar cycle. We find them on noble coats of arms, on flags and in popular fables. Sometimes he is intriguing and cunning, others he is an ally and faithful companion. He always appears to us exultant with greatness and power, and in possession of a certain hidden wisdom, forbidden to humans. In Catalonia, however, it is very difficult to find an image of the "Draco", the DRAGĀĀN, in which he is not fighting against the palate that is going to beat him, except that he is already agonizing at his feet. And it is that in Catalonia, the DRAGĀĀN represents the enemy, the evil one, the Devil in person. And it is a spirit of evil with which no deals are made or alliances made. You beat him or you destroy us. On these pages players will find many kinds of DRAGONS. None, I'm afraid, is as you imagine. Dracs is the first regional supplement of AQUELARRE, and is dedicated to Catalonia. In it you will find all the information you need to better set your games in Catalan lands: historical information on the geography, society and political tensions of the time, a Bestiary of native, traditional creatures centuries-old customs of a mechanical character, numerous popular legends applicable to the game, a good number of short adventures and a campaign set in the Eastern Mediterranean, Despertaferro, as well as a detailed description of the city of Barcelona in the Low Medieval period. Dracs is a supplement to THAT, the medieval demon role-playing game, and cannot be played independently without it. ##### ENGLISH ##### Title: Dracs (Dragons) Game: Aquelarre (A Coven of Witches), Demonic Medieval RPG Language: Spanish Release Year: 1994 Editorial: Joc Internacional Code: 1006 Pages: 120 Type: Softcover RPG book.
