Free indesign presentation layout templates. Presentation layout templates. Various layout templates available in powerpoint presentation. Presentation layout template design. Architectural presentation sheet layout templates. Presentation board layout templates download. Powerpoint presentation layout templates. Layout interior design presentation templates.

For example, this presentation template uses a blue stripe motif to link the slides together visually. CREATE THIS PRESENTATION TEMPLATE You could also use a recurring shape or image, like the the circle image frames in this presentation template: Or you could use a motif that reflects the theme of your presentation. Add a progress tracker to your presentation slides Creating a sense of forward movement will help keep your audience engaged. 8. This will let your audience know what stage you're at in your presentation. Pick a visual motif that runs throughout your presentation templates You can use visuals to pull your presentation design together and make it cohesive. The demand for creative, engaging visual content is higher than ever. If you want to really capture your audience's attention, you need to use creative presentation designs, like this one: That means incorporating eye-catching images, effective data visualizations, and bold typography into your slide decks. That could mean using one or two colors for all of your headers, background and borders. Your audience will also be able to refer to the sections in your presentation more easily afterwards. But I'll give you a few ideas for some types of charts and infographics that work well in presentations. Take a look at how this presentation uses teal to contrast with the other text and emphasize information: USE THIS PRESENTATION TEMPLATE 9. Alternate between different slide layouts to keep your audience engaged You may be tempted to use the same slide layout throughout your entire presentation-either for consistency, or because you're not sure how else to design your slide. For example, this presentation template uses a recurring cloud motif throughout the presentation to reflect the "dream" theme of the brand: This is a case where starting with a presentation template can really come in handy, because the template will already have a motif. And it can be. Make sharing your presentation easy by exporting it as a PDF or zipped file. USE THIS PRESENTATION TEMPLATE Icons can also be used to indicate where a new point begins: USE THIS PRESENTATION TEMPLATE Color selection can also be used to establish a visual hierarchy. Charts and infographics present information in an engaging, digestible way. Those are just a few different ways you can use charts to visualize. For example, this presentation template uses to shades of purple for a modern design. But combining different colors and patterns can also make for a more interesting design. This is presentation design 101. 3. USE THIS PRESENTATION TEMPLATE This onboarding presentation, for example, strategically uses bright icons and illustrations to make the material more engaging. The consistent color scheme, image style and font style pulls the presentation together. This slide template uses a simple timeline with complementary icons to emphasize each date: To compare amounts or sizes, a bubble chart can help drive the point home: Learn how to customize this template: For geographic and demographic information, a map can make a big impact on your audience. A classic pie chart or bar graph should be easily understood by your audience, provided you're following chart best practices. (Venngage offers over 40,000 icons, so finding an image shouldn't be too hard!) For example, this real estate presentation template uses icons to illustrate each real estate hack: When picking icons or symbols for your illustrations, make sure that the icon style you use is consistent. Don't overburden your slides with text Even if you decide to ignore most of the other tips in this guide, don't skip over this one. Signing up to Venngage is always free. This presenter isn't well-prepared. For example, this presentation template uses five different slide layouts. Create custom illustrations using icons to help tell stories Custom illustrations are one of this year's biggest graphic design trends. When you flip to a slide covered wall-to-wall with text, there's a good chance your audience is going to think: I don't want to read all of that. Related: How to Make Better Infographics for PowerPoint If you want to visualize steps in a process, the history of something, or a roadmap, use a timeline. This can make it easier to arrange the elements in your slide. For example, this presentation template uses line art icons for a scribbly youthful look: For more ideas, read our guide to creating icon illustrations. 6. USE THIS PRESENTATION TEMPLATE Design a presentation that engages your audience Think about the last boring presentation you sat through: What did the slides look like? Look for presentation templates with a motif that fits your topic and brand. They're fun, quirky, and more exciting than a boring old stock photo. You've decided to create something a little more interesting than a standard PowerPoint theme-good on you! But that doesn't mean you have to start completely from scratch. 7. Keep each slide focused on just one topic. Being the one to deliver a boring presentation. Or take this presentation template that introduces some of this year's biggest business trends. Were the charts and diagrams clunky and hard to understand? 2. Start with presentation templates Before jumping into the other tips, let's set the foundation. USE THIS PRESENTATION TEMPLATE To come up with different slide layouts, try dividing your slide into columns. (Beginners Guide) You can take a look at them in our templates library. This will help prevent your audience from getting bored. For more ideas, check out our guide to picking the best charts for your data. Click any of the presentation templates on this page, sign up for free and you'll enter Venngage's online presentation maker tool. In this post, we'll show you how create a presentation that will not only grab the attention of your audience but hold onto it as well. Were there too many points (or worse, paragraphs) crammed onto one slide? A visual motif is a repeated pattern, design, or image. Their eyes are going to naturally be drawn whatever the focal point on the page is. Download your presentation as a PDF to give to your audience afterwards It's common for audience members to request a copy of your presentation for their reference. More presentation templates and design guides: 120+ Best Presentation Ideas, Design Tips & Examples (+ Presentation Templates!) 12 Business Pitch Deck Templates and Design Best Practices to Impress Investors 5 Foolproof Presentation Layout Ideas (+ Presentation Templates!) How to Get Featured on the Front Page of SlideShare (Infographic) What Is A Webinar & How Do They Work? That way, your audience will catch on to the pattern and look for that color in upcoming slides. Instead, you can give yourself a head start by using creative presentation templates, like this one: Or this one: USE THIS HR PRESENTATION TEMPLATE While most PowerPoint themes are fairly limited in how much you can customize them, freeform presentation templates will give you the freedom to alter the design as much as you want. Get all our presentation templates on one page. This is especially important when presenting to new hires, who are likely dealing with information overload on their first day. USE THIS PRESENTATION TEMPLATE In this particular case, a more visual approach is not necessarily a matter of aesthetic preference, but a decision that can make your presentations more likely to stick. It's also the perfect time to upgrade your presentation skills while you're thinking about it too! If you have any questions, please don't hesitate to leave a comment below. This will communicate to your audience that if they take away one thing from your slide, it should be that piece of information. The problem is, using the same slide layout over and over again won't do much to excite your audience. Dedicate each slide to only one topic USE THIS PRESENTATION TEMPLATE Just as it's important for your slides to be cluttered, it's also important for your slides to be cohesive. You can also check out this video for all the highlights: Here are my top tips for designing a presentation with impact: 1. 11. One of the simplest approaches is to use a consistent color motif (or color scheme). Picking a visual motif will allow you to use consistent visuals throughout your presentation. When people see the same old boring PowerPoint themes, there's a good chance they're going to lose focus. You can create a hierarchy of information on your slide by making the most important information the focal point of your slide. Each individual slide covers one approach: USE THIS PRESENTATION TEMPLATE This simple, straightforward slide pattern will help the audience follow along without any confusion. There are other ways you can create consistency throughout your presentation, while also using different slide layouts-like through a visual motif. This presentation template uses a bar graph, a pie chart and a line graph to show different metrics: If you can, mix up the types of data visualizations you use. Now let's talk presentation design. For example, this presentation template uses brightly colored font in several sizes larger than the rest of the text to emphasize important numbers on each slide: But you could also pick one color to emphasize key information with. Now that you're equipped with some fundamentals of presentation design, the best way to learn is by doing. There are a few ways you can create a visual hierarchy on your slides. Similar to how you would put the chapter title at the top of the pages in a book, you can track the progress of your presentations in your slides. In fact, a study published in Business and Professional Communication Quarterly found that anxious presenters tended to use more text on their slides, usually because they used their slides as speaking notes. They draw your eye from point to point. It's a drag and drop editor that anyone can use. Placing icons beside headers and important points will make them stand out from the other information on the slide. Take a look at how the colorful blocks in this slide help to make the slide titles pop: USE THIS PRESENTATION TEMPLATE Your eyes are drawn first to the title text, then to the supporting information beside it. For example, this presentation slide template uses brief text and some simple icons to summarize the information: USE THIS PRESENTATION TEMPLATE This startup pitch deck makes use of evocative images, icons and big text to help present its ideas: USE THIS PRESENTATION TEMPLATE 4. Simply Publish your presentation to be taken to the presentation page, or click the Preview button to view your presentation privately. But I'm going to offer you a hack: Use icons to create illustrations. The example above shows how you can customize our templates and export them directly to PowerPoint. What's worse than sitting through a boring presentation? Creating your own illustrations might seem like a costly and time-consuming undertaking. Just want the templates? In most cases, the focal point will be the slide title, or a particular visual, or an important phrase or number. Highlight important information using big, bold colorful text Returning the idea of focal points on your slide: emphasize a key number or phrase in your persuasive presentation using big, bold text in a contrasting color. In your presentation design, a motif can take many forms. But most of them don't have any formal design experience. You can bold important phrases, like the word "Facebook" in this slide: USE THIS PRESENTATION TEMPLATE Icons also help to establish a reading order. Pro Tip: Venngage has over 40,000 icons and illustrations you can use to spice up your presentations! Need something more geared towards speaking? Establish a visual hierarchy on your slides When you flip to a new slide, your audience will be seeing it for the first time. The focal point is the most dominant area on your slide-the point that draws the most attention. Did they have a bland color scheme? Presentation templates to the rescue! Say goodbye to typical, boring PowerPoint slides, too. Instead, use presentation templates like this one to engage your audience: USE THIS PRESENTATION TEMPLATE Just so you know, some of our templates are free and some require a small monthly fee to use. The topic of each slide should be clearly stated in the slide title. Many Venngage users have told us that they're always looking for ways to make presentations more engaging. If you don't want to send a PDF, you can present directly in Venngage using our presentation tool. Instead of using a bunch of text, look for ways to present information visually using images, charts and infographics. This post will offers tips for creating different types of presentations, including: We'll also give you design tips to customize our presentation templates. If you're in the same boat, don't worry-this guide is for you. For example, let's take this template: USE THIS PRESENTATION TEMPLATE I used Venngage's My Brand Kit tool to apply our brand color palette to the Uber template in one click: We've got a ton of creative presentation templates. We've got an in-depth guide to picking charts for that. 5. For example, this presentation template covers different ways to be creative. Each new slide will signal a new topic. 10. You can arrange icons together to create a scene-like the pieces of a puzzle. A simple progress bar along the bottom of your slide shouldn't distract too much from the rest of your information. Cool? Our keynote presentation templates are all the rage. I won't go into too much detail here about what types of charts you should use for what data. Rather than listing multiple trends on one slide, each trend is fleshed out in its own slide: USE THIS PRESENTATION TEMPLATE As a presenter, keeping your slide topics organized will help you organize your thoughts as well. Visualize data using charts and infographics Replacing text with visuals is one of the best ways to prevent your slide design from becoming cluttered.
