History Terry Cunningham and the Cunningham Group originated the software in 1994.[2] Crystal Services Inc. marketed the product[3] (originally called "Quik Reports") when they couldn't find a suitable commercial report writer for an accounting software they developed add-on products for, which was ACCPAC Plus for DOS (later acquired by SAGE).[4] After producing versions 1.0 through 3.0, Crystal Services was acquired by Seagate Technology in 1994.[5] Crystal Services was combined with Holistic Systems to form the Information Management Group of Seagate Software, which later rebranded as Crystal Decisions and produced versions 4.0 through 9.0. Crystal Decisions was acquired in December 2003 by BusinessObjects, which produced versions 10, 11 (X) and version 12 (2008). SAP acquired BusinessObjects on October 8, 2007 and released Crystal Reports 2011 (version 14) on May 3, 2011. The latest version released is Crystal Reports 2020 (14.3.x) on June 13, 2020. The file extension for Crystal Reports' proprietary file format is .rpt. The design file can be saved without data, or with data for later viewing or sharing. Introduced with the release of Crystal Reports 2011 (version 14.0), the read-only .rptr file extension option allows for viewing, but cannot be modified once exported.[6] Several other applications, including Microsoft Visual Studio versions 2003 through 2008, and Borland Delphi, at one time bundled an OEM version of Crystal Reports as a general purpose reporting tool.[7] Microsoft discontinued this practice and later released their own competing reporting tool, SQL Server Reporting Services (SSRS).[8][verification needed] Versions and editions Version Release Date[9] Ownership Edition 1 Crystal Services 2 1992 Crystal Services 3 1994 Crystal Services 4 1995 Crystal Decisions 5 1996 Crystal Decisions 6 1997 Crystal Decisions 7 1998 Crystal Decisions 8 2000 Crystal Decisions D,P,S 8.5 2001 Crystal Decisions A,D,P,S 9 2002 Crystal Decisions A,D,P,S 10 2003 BusinessObjects A,D,P,S XI (11) 2004 Business Objects D,P,S XI R2 (11.5) Nov 24, 2005 Business Objects D,P,S 2008 (12) Mar 31, 2008 Business Objects D 2011 (14.0.x) Aug 31, 2011 SAP SE D 2013 (14.1.x) Aug 29, 2013 SAP SE D 2016 (14.2.x) Mar 08, 2016 SAP SE D 2020 (14.3.x) June 13, 2020 SAP SE D A=Advanced Developer, D=Developer, P=Professional, S=Standard[10] See also Business Software Applications and Services BusinessObjects Dashboard (business) List of reporting software Jasper Reports References ^ Crystal Reports small business marketing website ^ "Meet the Team".
