What are the pictures for? Taking photos is to save memorable moments in life or simply to post to society to share with everyone. In this day and age, everyone owns a smartphone to use for many different purposes, but photography is still one of the most popular functions. Everywhere now people like to take photos to save their favorite moments of their life. Especially women love taking photos every day and see it as fun to relax. One day they can take up to thousands of photos and only choose one or a few to post on social networks. But the photography software that comes with the device cannot satisfy the needs of photography enthusiasts. So I would like to recommend you an extremely good photo and video editing application for everyone, which is PicsArt Photo Editor created by PicsArt, a company specializing in photo and video editing. The app allows users to edit videos or photos so they look lively and interesting, capturing viewers. This causes the video or photo to get many likes on social networking sites like Facebook, Instagram... And of course, the more Likes and the more compliments the owner of That photo or video will be very exciting. So, do you want to capture the moment of youth through the memories? Download PicsArt Photo Editor for beautiful photos and videos right away. FEATURES PicsArt Photo Editor is a leading photo editing software currently, so the application also owns dozens of great features for users Professional editing tools The app gives users great tools to edit photos to suit their needs. Tools like cutouts, crop, stretch, clone, add text and adjust curves. It is just one of many great tool stores of the application. The app also includes a collection of photo collages, photo or video background frames, their backgrounds, and even borders. They will be the most supportive tools for photo editing for many different purposes. As you can adjust the background image to your liking, the blinding sunshine of summer with the rays of sunlight through the trees on the side of the road, the orange-red streets of maple leaves fall in the fall. Or even bustling cities in many parts of the world like New York... All can be thanks to the help of the application. Users can also add to their photos or clips text to make them more vivid, clearly describing what you want to say in the picture. Or do simpler things like creating your own memes to share with everyone. There are hundreds of different fonts for you to choose your own style. Moreover, the application also supports users with complex effects depending on the theme such as the Christmas theme, then there will be Christmas trees decorated with flashing lights, Santa hats. All of these add a touch of dynamism to your photos so they look even better. All of these effects are AI-assisted, allowing them to work automatically. So very convenient and easy to use, you only need a few small operations to be able to use it. Sticker & Sticker Creation Every day, the community of PicsArt has created thousands of daily stickers, over time accumulated, that number has reached millions of stickers. You can use them for free to adorn your photos or clips or combine them all together to look even better. Users can also create their own Stickers if you want. Drawing Tools When you use the software to take pictures or record clips of the application, you can insert stickers or draw tools to draw on the screen. You can enjoy creating your own photos or on the photography interface to make them look interesting. Creative Contest Every day, the app presents different photography challenges posed by the creative team to users. If you like it, then try to conquer these challenges, this is a good way to learn new photography tips and video clips. By participating in these challenges, you will improve your photography. There will be thousands of photos uploaded every day when users complete the challenge. Community The application has a large user community of more than 6 hundred million users worldwide, so the community of applications grows immensely. This is like a social network integrated right inside the application. You can find tons of beautiful pictures of other users uploading on the community. From there learn more new ways of photographing and know how to make a photo or a clip look beautiful and eye-catching. Picsart Gold This is like an extended upgrade compared to the regular version, but to use this version, you have to pay some money. But once upgraded to GOLD, you will be unlocked thousands of great things like Stickers, Fonts... and many other unique features that are only available on the GOLD version. You will not regret spending money to own this upgrade. INTERFACE – PicsArt Photo Editor Pic, Video & Collage Maker is built based on the main color here which is white and is divided into 5 main tabs. The first tab will be Home Screen which will be where you will see pictures of other people posted by the creative team to observe. Not only to see but below each photo will show the actions that the owner of the photo has done to make them so beautiful. The next tab will be the Search tab in this tab you can use to search other users or discover unique photos posted by others. Or find keywords for different topics like Happy, Strawberry... The next tab will be the most important tab and the focus of the application is Edit. This tab will display the photos in your memory, start editing, select any image and start creating it. There are also different photography topics included by the manufacturer below, please explore this yourself. The Open will be the next tab, there will be challenges for you to implement them.
