Forum > BuildBox > How do I...? > HomeAndroid StudyJak Add exit button to Android Studio with source code, copy and paste the code, how to add exit button to Android Studio with source code, copy and paste the code in just two minutes, you can add this exit button to Android Studio. This is very important when we are building our application. When the user needs to exit our surbackPressed() { new AlertDialog.Builder(this).seticon(Android.r.Drawable.ic_dialog_aler). Settitle("Application Name").
SetMessage("Are you sure you want to close this application?"). SettingPositiveButton("Yes", new DialogInterface.OnClickListener() {@Override public void onClick(DialogInterface Dialog, int) {Surface();}}}}}}}}}}}}}}}}}}}}} } } }}}}}}}}}}}}}}}}}}}}
