# Ancient river valley civilization map

Session 1. Evaluating the Location of Ancient River Valley Civilizations In this lesson students examine the physical environment of the early river valley civilizations. In addition to identifying the locations of the ancient civilizations, students complete a feature analysis to assist them in comparing the physical environment and determining how it afforded protection to the civilizations. Key Questions Why was a river valley a good place for a settlement? What was the significance of these river valley civilizations? Note: The following files contain layered pdfs. In order to manipulate the map layers, you must download each file. Lesson Lesson with attachments is large file and should be downloaded (right-click on link) and viewed in Adobe Reader Lesson without attachments Attachments Additional Maps Attachment O: Using Layered Portable Document Files (pdfs) Online interactive map: [◆ WH1.3a Teacher Resources To Session 2.
