Capcom 3: Fate of Two Worlds Newspaper 4Marvel vs. Capcom 3: fate of two world news I will start saying that this game is easy to collect for anyone who feels a taste for a good fighting game. In the end, if you think you start by saying that this game is easy to collect for anyone trying a taste for a good fighting game. In the end, if you think you are good enough, you will find the need to master the characters you love, this is difficult; not to say as SSF4, but difficult despite. It requires constant practice and devotion, otherwise you will be destroyed in a game classified against someone who knows his things! The only ruin of this game is unable to watch online games live: All we see is two player cards having sex? However, there is too much happening right away to do so, and it would literally collapse if we had the full lobby looking and two players fight it. I give the game a solid 8, personally I'm not incredible, but if you keep trying, the game has something for everyone. Just buy it if you know you're willing to spend hours of your time. The reward is just destroying noobs online and having a good laugh. Å € | Expand
