The application may not work due to device issues or internet connection issues. When you earn money and get a free gift card with GetToCash! Having a problem with the app, post it in the comment box below and someone from our community can help you out. In the meantime, you can try the fixes below. This is one of the most common Android operating system problems. Usually, if youApp, you see a black screen for a few seconds and then the app crashes with or without an error message. There are several ways to solve this problem. In most cases, this can be a temporary charging issue. Just tap the recent apps menu on your phone (usually the first button on the left). Then close the application that has this problem. Now open the app again. He can work just fine. Try doing a hard reset on your Android phone. Press and hold the Home and Power buttons at the same time for up to 10 seconds. Then release the buttons and hold the Power button until the screen lights up. Now you can try to open the app. it might work fine. If none of the above methods work, you can wait for the phone to run out of power and it will automatically turn off. Then charge it and press the power button. After that, you can work. If the issue persists, you may need to uninstall and reinstall the app. Android usually resets all settings after reinstalling and logging into the app. You can see if this gets fixed. Even in some rare cases, the reinstall step also doesn't work. In this case, try installing older versions of the app. Happiness! There are several situations that can cause loading issues in mobile apps. Earn money and a free gift card with GetToCash! The application server may not be available, causing the download issue. Try again in a few minutes. Your Wi-Fi/mobile data connection is not working properly. Please check your data connection. Too many users are using the app at the same time.
