ForColor: To view this video Download Flash Player that Wrabel arrived as a miracle on earth, we cannot contradict. The 31-year-old American managed to emphasize in a short time as a true Pop God who always puts refreshing songs in the world. This time it has shaken a special partnership out of the sleeve again. For example, after artists like P! Nk, Louis Tomlinson. Louis the Child and The Backstreet Boys, it was again the turn of his good friend and employees Keshà. The two are also "best friends forever and ever and sometimes make the time to do a song together, but it never went as fast as in this one à –" I was young ". What started as a melody on a toy floor, turned out to be a nice POP number that we will sometimes expect on the radio soon. As best friends we usually know a lot about each other and this is something we can feel good about creative à –" Since I was young ... Thus Wrabel tells the story of how he became the person he is today; This goes from her first cigarette when she was sixteen to her shows sold around the world. Topics such as Austerity, Self-love, gratitude and their identity will then be smooth and come to us with force. The multi-attitude that contains the number of first seconds is thus in perfect attitude and cultivated the arms to make the objective. A calm heartbeat that receives a sturdy well well with the whole and leads us to the liberalization of the journey from childhood to adulthood. He seems to be young ... a party of jacket dolls that is driven by the pretentious perseverance of Wrabel that makes us think. It's never too bombastic, but it's not bad because that would narrow the story. All in all it is a real fact that I can play more in the future! I hope we see more such creative collaboration on America's upcoming debut album that doesn't have an official release date yet. Facebook / Instagram Find out more Music on our Spotify.
