How to reset ink absorber full canon e400

Author Topic: canon printer e400 ink absorber counter reset problem (Read 6617 times) 0 Members and 1 Guest are viewing this topic. Resetting the waste ink absorber on a Canon printer can resolve some error codes that appear when turning it on. Make sure the printer is turned off. Press and hold the Resume button (triangle inside a circle). Whilst it is held down, hold down the Power button. The green led light should come on. Keep the Power button held down. Release the Resume button and then press it twice. The light should go amber, then green again. Release the Power button. Press the Resume button four times and then press the Power button straight after to confirm the selected action (Reset Counter Absorber). Turn off the printer and then turn it on again Problem: Waste ink tank full, Waste ink pad full, error 5B00, Error P07 Select the printer model you will be directed to the tutorial how to reset printer. i70, i80, i250, i255, i320, i350, i355, i450, i450X, i455, i455X, i470D, i475D, i550, i550X, i560, i560X, i850, i860, i865, i900D, i905D, i950, i960, i965, i990, i6100, i6500, i9100, i9900,
