

Whatsapp auto download off android

Continue

This post will show you how to stop automatic media downloads in the WhatsApp (Android and iPhone).AdvertisementsNote that you can't disable auto-download on WhatsApp Web and Desktop app. Let's start Stop Auto-Download in WhatsApp (iPhone)Here are the steps to stop auto-download in WhatsApp:AdvertisementsOpen the WhatsApp Messenger app.Select "Settings" at the bottom, then "Storage and Data." You'll see these options in the "Media Auto-Download" section:AdvertisementsChoose one of them, and you'll view these three options:Never - This disables auto-download of selected media. For example, if I choose "Never" for "Video," WhatsApp will not auto-download the video.Wi-Fi - This only downloads selected media on a Wi-Fi connection.Wi-Fi and Cellular - This downloads selected media on Wi-Fi and mobile data.Choose the one you prefer.You can follow the steps above for other options in the "Media Auto-Download" section.That's all.AdvertisementsCheck out the "How to Reset Auto-Download Settings" section if you want to reset these.Here are the steps:Open the WhatsApp app and tap three vertical dots in the upper right corner.Select Settings > Storage and data.AdvertisementsYou'll see these three options in the "Media auto-download" section above the Media upload quality section.To turn off the auto-download of media on mobile data, select the "When using mobile data" option.Deactivate the ones you don't want to auto-download and tap "OK."To disable auto-download on Wi-Fi, select "When connected on Wi-Fi." Uncheck the checkbox of your preferred ones and tap "OK."AdvertisementsTo cancel automatic downloads while roaming, select "When roaming." Uncheck the desired ones and tap "OK."That's it. From now on, tap the Download icon in the media files you receive to download them.Check out the next section if you'd like to reset these.Reset WhatsApp Auto-Download SettingsYou can reset it whenever you want, and here's how on Android and iPhone:iPhoneTap the Settings tab at the bottom and select Storage and Data. Tap the Reset Auto-Download Settings option. That's all. Note that you already have default settings if you can't tap on the option above.AndroidUnlike the iPhone, there is no reset option for Android.However, you can reset it by applying default settings manually. You can find them in the "Notes" below.That's it.Notes:By default, WhatsApp automatically downloads:Photos on the mobile data connection.All media (Photos, audio, videos, and documents) on a Wi-Fi connection.Nothing on roaming. This one only applies to WhatsApp for Android.Also, note this:There is no option to stop voice messages from auto-downloading on WhatsApp.That's it.Thanks for reading. WhatsApp has a name that could never be unheard of. You all know that it is a well-known messenger app owned by Facebook. The interesting thing about the app is that it provides users with instant messaging and voice or video call services free of cost, even internationally, all with only an internet connection. You can share anything in the app. It can be photos, videos, documents, files, contacts, and even your live location. But are you unaware of how to turn off the automatic download of media on WhatsApp? Then this article on how to stop auto-download in WhatsApp will help you. Continue reading to learn how to stop auto-download in WhatsApp. The WhatsApp platform comes with an appealing technology option that automatically downloads media sources like photos, videos, or audio. Although this feature is charming, it can frustrate you to no extent when it places its hand on your storage. When the automatic download option is enabled in the platform, all the media sources you receive get saved in your phone's storage. This article will guide you on how to disable auto download media in WhatsApp for both iPhone and Android users. Method 1: On Android Phone This method completely restricts the download of all media files of all chats and groups. If you are serious about preventing every media file download from the platform, follow the steps given below on how to turn off the automatic download of media on WhatsApp. 1. Open the WhatsApp application on your Android phone. 2. Tap the three vertical dots present at the upper right corner. 3. Tap the Settings option. 4. Tap the Storage and data option on the Settings page. 5. Under the Media auto-download section, tap on the When using mobile data option. 6. Uncheck all the four options, Photos, Videos, Audio, and Documents, and tap OK to disable auto-downloads. Note: You can customize the auto-download download option in this step. If necessary, you can only disable the media file option you don't think is required. Tap and check the box, whichever you feel is needed to be downloaded automatically. 7. Repeat Step 5 and Step 6 to tap the other two options. When connected to Wi-Fi and when roaming, and uncheck its respective media components. Also Read: How to Use Two WhatsApp in One Android Phone Method 2: On iPhone The method to disable auto download on an iPhone is slightly different than your Android device. Implement the steps given below on how to disable auto download media in WhatsApp. 1. Open the WhatsApp application on your iPhone. 2. Tap the Settings icon present at the bottom right corner of the display screen. 3. Tap the Storage and Date option. 4. Under the MEDIA AUTO-DOWNLOAD section, tap the Photo option. 5. Then, tap Never. 6. Similarly, tap the other three options one by one and select Never. Once done, you will not find any auto-downloads happening on your phone. The files you manually choose to download are only saved on your phone. Also Read: How to Export WhatsApp Chat as PDF How to Stop Auto Download from Single Chat Follow the given steps to stop auto download in WhatsApp from a single chat. Option 1: On Android Phone The platform provides an option to stop auto-downloading for one chat contact or group. Follow the steps given below on how to stop WhatsApp from downloading and saving photos or videos. 1. Open the WhatsApp application on your Android phone. 2. Long-press the desired chat contact for a few seconds to select it. 3. Tap the three vertical dots at the upper right corner and select the View contact option. Note: For a group chat, tap Group info. 4. Tap the Media visibility option. 5. Select No on the prompt window popup. Then, tap OK. Once finished, you will not find any media files received from the person on your phone gallery anymore. Also Read: How to Change Font Style in WhatsApp Option 2: On iPhone Here, you can prevent the photos or videos from appearing on the camera roll for each contact. Here is how to stop WhatsApp from downloading and saving photos or videos. 1. Open the WhatsApp application on your iPhone. 2. Tap the Settings icon present at the bottom right corner of the display screen. 3. Tap the Chat option. 4. Toggle off the Save to Camera Roll option on the Chat settings. Also Read: How to See Blocked Messages on iPhone Frequently Asked Questions (FAQs) Q1. What is the maximum file size one can share on WhatsApp? Ans. The limit for sharing photos and video attachments is up to 16 MB each, while the document limit is 100 MB in the app. But note if you attach photos and videos together as a document, you can share it with a 100 MB limit. Q2. Is it possible to disable media auto-download via WhatsApp web? Ans. Unfortunately, no. It is not possible to disable media auto-download via WhatsApp web. You can disable it only through your mobile phone. Q3. What are the WhatsApp features available on the mobile version but not on the web? Ans. The features available in the WhatsApp mobile version but not on its web version are new contact creation, sending a WhatsApp broadcast, making or receiving phone or video calls, posting a new status update, and sharing a current location or map. Recommended: We hope that this article was helpful and you have learned how to stop auto download in WhatsApp. Feel free to reach out to us with your queries and suggestions via the comment section below. Also, let us know what you want to learn next. Alexander Shatov / unsplash WhatsApp is one of the leading services for communication. From the early beginning, it was used to send messages and call other users, but now, the app has increased the number of features and gives an opportunity to keep In touch with others by sending photos, videos, voice messages, etc. However, usually, downloading photos takes a lot of storage. So it's better to stop auto-download to have more available storage and let your device work fast. Sometimes, people notice that there is more and more trash in their storage. It happens when WhatsApp automatically downloads the images, videos, and audio files if you forget to disable them. How to switch off WhatsApp auto-download on Android If you want to switch off WhatsApp auto-download on Android, you should follow the steps which would be mentioned in the section below: First of all, you should open WhatsApp and the dot menu. To do this, you should click on the WhatsApp icon in the menu, and then the three dots would be displayed in the upper right corner of the WhatsApp home window. After that, you should click on Settings. To do that, you should click on three dots and then the list of options would be displayed. Click on the Settings option. Next, you should click on Data and storage usage. After you have done that, there would be three options for disabling auto data download displayed. Then, you should click on the following menus, one by one, and follow step 5. When using mobile dataWhen connected to Wi-FiWhen Roaming To finish the process, you should uncheck the box with photos, Audio, and Videos. These simple steps will turn WhatsApp videos auto-downloading on your smartphone off. How to switch off WhatsApp auto-download on iPhone If you want to switch off WhatsApp auto-download on your iPhone, you should follow the steps which would be mentioned in the section below: First of all, you should click on the WhatsApp icon on your iPhone to open the app. After that, you should head to the lower right corner to find and click on the Settings option. Then, you should click on Data and storage usage. Then, you should disable Media Auto-Download. To do that, you should click on the photos, audio, video and documents and disable them. To finish the process, you should switch off the image saving to the camera roll. To do that, you should head to Settings, then, you should click on Chats, and then you should tap on Save to Camera Roll. You can save a lot of data usage by downloading the audio, video and image files manually, selectively. There is one more feature called lower data usage. If you want to use less data while processing voice calls, you should switch it on. How to delete WhatsApp backup on your iPhone If you want to delete your WhatsApp backup on your iPhone, you should follow the steps which would be mentioned in the section below: First of all, you should open your WhatsApp.After that, you should click on Settings at the bottom right corner.Then, you should press on chats option. Click on "clear all chats". It will delete your complete backup chats. Next, you should click on "Chat backup".After that, you should click on auto backup.To finish the process, you should click on the "off" option to turn off the backup. It will switch off the backup. As you can see, there is nothing difficult in those processes, but they would significantly reduce the storage that is used by your WhatsApp.
