Top grossing games google play. What is the top grossing mobile game. Top 1 grossing game in play store. Top 10 grossing games in play store. Highest grossing app game.

As shown in our app revenue market report, the Apple App Store and Google Play Store generate the most revenue from games, accounting for 71% on both platforms. So it's no surprise that the majority of top-grossing apps are games, especially since some apps have found ways to avoid paying users for subscriptions to the platform. For example, Netflix and Spotify have removed in-app subscriptions for iOS and Android. We estimate that in 2020 Apple and Google lost 1.8 billion USD from Netflix in app subscriptions. In-app purchases are a more difficult decision because consumers often buy on impulse. This means that almost all games use Apple and Google payment solutions for in-app purchases. In terms of countries, China, Japan and the US are the top three spenders in the world. Japan spends the most per capita, and China can often raise its own game to achieve higher margins due to its large number of mobile users. An example of this would be Honor of Kings, which has consistently been in the top three grossers for five years. The game is only available in China and is part of the semi-popular PC game League of Legends. We have collected data and statistics about the most profitable 2021 programs. Read on to learn more.
