Here is an example banner: We applied the gradient filling in the background. We added curves, circles and a tilted grid to add a little color to the banner. We also added artificial shadow to lift the banner from the surface. We have completed the banner with a title and a payment line. We created creative variations of the banner to choose an alternative we like: All PPT Banner templates Finally, we chose an alternative that made us happy. If we had worked on more sophisticated software, I doubt we could have made so many variations so fast. Step 4: Save the banner: If you need to use the banner in another application (i.e. not PowerPoint) you need an image file. You can generate the image file in one of these 2 ways: In PowerPoint, save the file as... a JPG image. This will save the complete slide as a JPG image. Select all items in the banner. Copy and paste as... PNG image. Now you can click the image and save it in any folder you like. Another way to impress the audience: Using beautiful-looking banners on your website or on your eLearning platforms is a way to impress your audience.
