**BPSC Exam Date Revised 2020**

Look for the green arrow in each lesson. You learn methods and technologies that help you develop device management policies, mitigate data loss, manage applications, and improve security of Windows 10 and integrated Azure features. Also prepare for Exam 70-697: Configuring Windows 10 Devices, one of the exams required to achieve the MCSA: Windows 10 certification. Overview This engaging, self-paced instructional video course demonstrates various aspects of configuring Windows 10 devices. You can follow along by building a test lab using virtual machines; you need a domain controller and two Windows 10 virtual machines to practice what you've learned in the video course. Skill Level Learn How To Plan your Windows 10 installation Install Windows 10 and perform post-installation configuration tasks Implement Windows 10 in an enterprise environment by configuring Active Directory and managing User Account Control (UAC) Configure and support IPv4 and IPv6 settings Troubleshoot network issues Configure storage, data access, and usage Configure and implement apps Implement remote management with PowerShell Monitor Windows performance and manage security Configure authentication options and additional security settings Implement and configure Hyper-V Configure file and systems recovery settings and manage updates Who Should Take This Course IT professionals who install, configure, and maintain Windows 10 in local and enterprise environments IT professionals who want to explore new and updated features in Windows 10 Windows 10 administrators preparing for MCSA Exam 70-698 Course Requirements About Pearson Video Training Pearson publishes expert-led video tutorials covering a wide selection of technology topics designed to teach you the skills you need to succeed. These professional and personal technology videos feature world-leading author instructors published by your trusted technology brands: Addison-Wesley, Cisco Press, Pearson IT Certification, Prentice Hall, Sams, and Que Topics include: IT Certification, Network Security, Cisco Technology, Programming, Web Development, Mobile Development, and more. You can follow along by building a test lab using virtual machines. Skill Level Intermediate Learn How To\* Manage identity\* Plan desktop and device deployment\* Plan and implement a Microsoft 365 solution\* Configure network settings\* Configure storage\* Manage data access and protection\* Manage remote access\* Manage apps\* Configure Hyper-V\* Manage updates and recovery Who Should Take This Course\* IT professionals who administer, maintain, and troubleshoot Windows devices\* IT professionals who want to explore new and updated features in Windows 10\* Windows 10 administrators preparing for MCSA Exam 70-697 Course Requirements\* Foundational IT skills\* Basic understanding of and experience with Windows networking\* Knowledge of Active Directory and Microsoft Intune fundamentals About Pearson Video Training Pearson publishes expert-led video tutorials covering a wide selection of technology topics designed to teach you the skills you need to succeed. If you're planning to take Exam 70-698: Installing and Configuring Windows 10, this video course covers the exam objective domains published by Microsoft in a logical way for learning the technology and preparing for the exam. Throughout each lesson, IT trainer and technical author Andrew Warren describes key concepts and puts them into action with demonstrations and real-world scenarios. Video Lessons are available for download for offline viewing within the streaming format. These professional and personal technology videos feature world-leading author instructors published by your trusted technology brands: Addison-Wesley, Cisco Press, Pearson IT Certification, Prentice Hall, Sams, and Que.
