Spins coin master 2019

In this game there is not much skill, which is all fluff, without substance. This app is a slot game disguised as an action-oriented Viking game.For the brainless zone out of time, Coin Master is a game.Coin Master is a free slot machine to play game. It's easy to learn and hard to break down. Play as a guest or connect to Facebook to play with your friends.Â Name your Viking. The game does not include random Viking names, so type your Astrid or Arvid. Choose a cheerful avatar with a cuckold helmet to accompany it.Play Master CoinUse the slot machines to earn coins, attack and raid other villages. This is where the Viking theme ends. Coin Master doesn't have a plot or a story. The goal is to keep earning coins to build, upgrade or repair your village and steal coins from your neighbor. If you've logged into Facebook, the neighbor you're stealing could be your BFF.Collect coins by tapping a slot machine. Three games in a row, you win big. But you won't always get coins.An in-game tutorial keeps you up to speed, but the controls are simple enough that you don't need them. The Build button takes you to the village shop. You'll start by throwing \$60,000 on a nice straw house.Every item you build gives you a star. You need twenty stars to get to the next level of the village. As the stars of your items rise and level up, your village will look less like How to Train the Dragon after an attack. It will turn into something much more impressive. Statues of gold, anyone?But it's also useless. Each level opens up a new kind of village and have nothing to do with the Vikings.Seeing the starsHow to get the stars? Every hour, you will receive five free spins slot machine. These can accumulate so you don't have to check every hour. When you spin the wheel, your slot machine win might not be a bundle of coins to throw down on your next village upgrade. Running a masked pig? Raid! You get to attack a Coin Master.The Coin Master is a friend (if you logged in to Facebook) or a random player with the most coins. Four different attack points are self-highlighted in the viewfinder. The game requires you to ignore the cozy cabin and the reindeer, and directs your attention to the catapult. Destroy it with one touch and earn coins.Only three of the four points will contain coins. Make the right choice. You'll dig three times for your gold. When you're done, you'll go back to the slot machineWith the ThorRoll Hammer The ThorRoll hammer and you will move to a nearby village. If you connected Facebook, it could be your friend's village or a random player. Attack the village or you can tap "Vendetta" or "Friends" at the top of the strike and destroy the village of your friends or view a list of people who have destroyed yours. You'll see a list of their names and how many stars they have so you can decide who's more worthy of your wrath. Sweetness Sweetness It's the best part of Coin Master. Your village is not immune to fighting. You will lose a star from your harsh totals. The object of your village will lose a star and return to the previous level. Touch â € œfixâ € to put it right. If you turn a Viking shield, you earned the automatic protection of your village. The next attack will keep your village safe and earn the Raider Less Coins. Too many three shields are your maximum. You'll see them accumulate at the top of the screen. If you roll extra shields, you get to Ri-roll. With only three shields, and millions of players, your village will not remain the way you left it. You will lose the stars. As a progress of levels, it is a frustrating process. You need to save money to update your village, but you can not update with frequent attacks. Why do the stars import? The stars hold the grade and put you on the ranking. Earn a star for every update in your village. Once you get a quite high level, you can earn the stars through card collection. Frequent paywalls distract and encourage you to spend money on a faster leveling. It's almost impossible to play without paying. Cooking cards Bonanza Where do you find cards? After hitting level 3, which is a slow grind, you can find cards in the neighbors' chest. The type of village in which the type and rarity of the card you receive is in determiner. Nine cards form every collection. Complete your collection for the number of stars displayed at the top of each card and other prizes, such as free spins. You will not get duplicate objects. Play long enough and you can unlock pets like a rhinoceros, a fox or a tiger. You don't sit there and look beautiful. Each type of pet offers a different village bonus. Where can you run this program? Download coin master for your Android phone or Apple products using iOS 9 or later. Is there a better alternative? Pirate Coin Master and Smash Island Crazy The cards offer the same Cutesy graphics and winning fun without Viking theme. There are still coin collection raids on the neighbors. Pirate Coin Master offers different vessels to build and cards to collect. Smash Island uses a wheel, not a slot machine, to turn and build your different islands. You can still attach your Facebook account so that your friends can help you (or not.) These games are so close in style and mechanics. It is reduced to if you prefer a Slot spinning format and cheerful theme on another. Coin master is without thoughts and repetitive button-tapping on entertainment point. With the timely check-in and the limit of fifty-spin, what should be a simple time-filler could turn into a story all day. Download it? It's safe to skip Coin Master.
