I bought this book during the sale of library warehouse and I dug out of my shelves for our theme of our at Tale Bimestrale theme: Dee, Faeries, spiritual stars and heavenly beings. Ikarus Jackson is an unusual boy. He has the useless white and he can fly. Similar to most children in the literature that are able to fly like Barnaby in John Boyne the terrible thing that has happened to Barnaby Brocket with fabulous illustrations by Oliver Jeffers, and Princess Hyacinth of Florence Parry Heide and Lane Smith, Ikarus had had Difficulty and heard a deep sense of isolation. A, the unique Ikarus is perceived as a bother from his school teachers, while his classmates thought to him as a show-off, and the adults perceived it as strange and different, therefore, dangerous for him himself than for others. While I read the book, it was reminded of our foreigners and in bimeshly themed dsadagates, this would have been a perfect book to do too. What I especially liked about this book is that Ikarus is portrayed nor as a fairy nor as a god. He simply sprouted the beautiful wings. Quite similar in reality at David Almond's Skellig. And while all the neighbors' children have slowed up and teased his ability to fly, there was only this quiet girl who, by the way, is telling the story, which she saw how beautiful Ikarus gift is. This is a book that celebrates diversity in its purest form. It shows that not only the fieroes or angels can have wings and as a simple act of affirmation can change the life of another person.
