Artist: Cher & Peter Cetera Album: Miscellaneous Genre: Pop Heyo! SONGLYRICS just got interactive. Highlight. Review: RIFF-it. RIFF-it good. Well, here we are again I guess it must be fate We've tried it on our own But deep inside we've known We'd be back to set things straight I still remember when Your kiss was so brand new Every memory repeats Every step I take retreats Every journey always brings me back to you After all the stops and starts We keep coming back to these two hearts Two angels who've been rescued from the fall And after all that we've been through It all comes down to me and you I guess it's meant to be, forever you and me, after all When love is truly right This time it's truly right I lives from year to year It changes as it grows And, oh, the way it grows But it never disappears After all the stops and starts We keep coming back to these two hearts Two angels who've been rescued from the fall And after all that we've been through It all comes down to me and you I guess it's meant to be, forever you and me, after all Always just beyond my touch Though I needed you so much After all what else is living for? Whoa After all the stops and starts We keep coming back to these two hearts Two angels who've been rescued from the fall And after all that we've been through It all comes down to me and you I guess it's meant to be, forever you and me After all the stops and starts We keep coming back to these two hearts Two angels who've been rescued from the fall And after all that we've been through It all comes down to me and you I guess it's meant to be, forever you and me, after all Submit lyrics correction — Other release Comments Used as the love theme for the movie Chances Are and nominated for best original song at the Academy Awards 1989. The song seeks to highlight the fact that the singer believes they are meant to be a couple because despite all the ups and downs, they always get back together and rekindle their love. She describes what they share as 'true love', elaborating that it continues to grow through the changes and never dies. The singer is convinced that they are meant to be together forever as they always ends up in each other's arms.
